RE: RFP for the Department of Natural Resources – Eagle Creek Resort Demolition, Redevelopment and Concession Services
Ref # 18-422DNR-REALT-B-221, Closed April 25th , 2018, at 2:00PM

Dear Sir/Madam:

Thank you for your proposal for the Eagle Creek Resort Demolition, Redevelopment and Concession Services RFP.

Upon review, the proposal has been reviewed and found non-responsive for the following reason:

1) Proposal did not meet the required minimum points in four (4) of the six (6) categories in order to be considered "Responsive" per Section B.4.2. of the Request for Proposal document.

   IAC Title 44 Section 1.2040 c) C) "the supply or service offered in the bid or proposal is unacceptable by reason of its failure to meet the announced requirements of the solicitation, including, but not limited to, specifications or permissible alternates or other acceptability criteria set forth in the solicitation, statement of work or quotation."

Since Sullivan Marina and Campground, LLC does not meet the minimum mandatory requirements of this RFP, its bid is deemed non-responsive and will receive no further consideration.

If you have questions, please contact me at 217.782.5695 or Melissa.orrill@illinois.gov .

We appreciate your interest in providing services to our agency.

Sincerely,

[redacted]

Melissa Orrill, Assistant APO
Illinois Department of Natural Resources
