TOTAL LIVING
CARPET CLEANING

(208)
766-3048

My steps are:

1. Pretreat Carpet
2. Scrub/brushpro to lift soils to the surface.
3. Use a truck-mount machine to rinse with very hot soft water that is injected with a rinsing agent. SO IT WON'T ATTRACT DIRT.
4. Put fans down for faster drying times.
5. Groom most carpets leaving them beautiful, soft and clean.
