Canisteo Transmission Project
Stabilized Construction Entrance Construction Notice
September 2026

Beginning on or about September 23, 2026, Canisteo Wind Energy LLC (CWE) will install up to 8 stabilized construction entrances associated with the construction of an approximately 15.3-mile, 115- kilovolt (kV) electric transmission line to be located in the Town of Canisteo, Town of Jasper, City of Hornell, Town of Hornellsville, and the Village of Canisteo in Steuben County, New York (Transmission Facility) (and up to 24 total stabilized construction entrances across both the Transmission Facility and the related wind energy generation facility).

This notice is being provided in accordance with Certificate Condition 37 of the Order Adopting Joint Proposal and Granting Certificate of Environmental Compatibility and Public Need, with Conditions (Certificate Order) issued by the New York State Public Service Commission (PSC or Commission) on August 11, 2022, authorizing the Transmission Facility. A copy of the Certificate Order (and all public documents filed in this proceeding), including the Stabilized Construction Entrance EM&CP, may be accessed electronically at the New York State Department of Public Service website, www.dps.ny.gov. To access documents, go to "Search," type the case number, "19-T-0041," and click "Search by Case Number" or use the direct link: https://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterSeq=58709&MNO=19-T-0041

BRIEF DESCRIPTION OF THE PROJECT

When completed, the Project will consist of an approximately 15.3-mile, 115-kV electric transmission line connecting the Collection Substation, a component of the Canisteo Wind Energy Facility proposed to be located in the Town of Jasper (Article 10 Facility) and authorized by the New York Board on Electric Generation Siting and the Environment (Siting Board), to a new Point of Interconnection (POI) Switchyard to be built by CWE adjacent to the New York State Electric and Gas (NYSEG) Bennett Substation in the Town of Hornellsville.

THE CONSTRUCTION SCHEDULE

The stabilized construction entrance phase of construction is scheduled to begin on or about September 23, 2026, and last through December 31, 2026. Construction activity will be limited to the hours between 7 a.m. and 7 p.m., or daylight hours outside this window, Monday through Saturday. The construction transportation routes are shown on the attached maps.

PROCEDURE AND CONTACT INFORMATION FOR REGISTERING A COMPLAINT

Residents affected by the stabilized construction entrance activities may register complaints through the following channels. For safety reasons, members of the public will not be allowed onsite to register complaints with CWE-affiliated workers at locations other than those identified as follows:

1. Letters or written notes delivered to CWE's local development office via U.S. Mail or personal delivery at 2 South Main Street, Canisteo, NY 14823;
2. Phone messages recorded by calling the Toll-Free Number: (607) 414-0681;
3. Emails directed to CWE at its email address: CanisteoWindEnergy@invenergy.com

CONTACT INFORMATION

The Transmission Facility is under the jurisdiction of the Commission, which is responsible for enforcing compliance with environmental and construction conditions, and which may be contacted at the address, email, and telephone number below.
