NO MORE TICKET SCALPING.

The House Passes a Bill Compelling Railroad Companies

To Redeem Tickets—Everything Quiet in the Senate—The Entire Day Taken Up With the Post Office Bill—Republicans Can Not Control the Next Senate.

WASHINGTON, Feb. 27.—The senate turned today from the stirring theme of Cuba to commonplace appropriation bills giving the entire day to the post-office bill.

There was a somewhat sensational diversion when Mr Dubois made a statement warning his former Republican associates that they could not control the next senate and the silver Republicans would never co-operate with them while they clung to a single gold standard.

The house after a five hours' struggle today passed the anti-railroad ticket-scalping bill. The bill applies only to interstate commerce transactions. It requires all carriers subject to the interstate commerce act to provide agents authorized to sell their tickets with certificates and makes it a misdemeanor punishable by a fine of $1000, or imprisonment for one year for any person not duly authorized to sell tickets. Counterfeiters Caught.

SEATTLE, Wash., Feb. 27.—The arrest Tuesday night of Mark McAlpin, William Lourie and Charles Hussey, the latter a sixteen-year-old boy, has led to the discovery by the police that they have run into a nest of counterfeiters, as well as thieves. It is not thought that any spurious coin has been passed and the specimens obtained by the police show such workmanship that it seems hardly possible that much of it could be worked off. The evidence was found in a cabin occupied by the three men. The tools were not discovered, but it is believed that they are secreted somewhere in the cabin

In addition to this, the police have indisputable evidence that the man now in custody were doing a wholesale robbery business. The cabin was well supplied with all kinds of household goods, sugars, tobacco, etc., a great deal of which has been identified.

Early Wednesday morning a safe of a grocery store in the Freelance portion of the city was blown open by crackesmen and $6 taken. That the man were not much afraid of detection is proven by the fact that the safe, which was a small one, was taken out of the store into the street and there blown open with powder. It is supposed that the work was done by the same men who recently robbed a safe in the office of the Oregon Improvement company.

TERRITORIAL NEWS.

Ought to be a Journalist.

From the Gazette.

Few men in any country are so clearheaded at all times as is Hon. J. H. Carpenter, member of the council from Yuma. He might be styled the Tom Reed of the west without making any mistake except in point of avoirdupois. Mr. Carpenter, has the happy faculty of being able to think while on his feet, while many men who, when alone have clear ideas, while on the floor lead one to believe that they are thinking with their feet. Mr. Carpenter should have been a journalist.

The Circuit Court Bill.

Today there will be introduced into the council a new circuit court bill, intended to meet all popular objections that have been urged against the measure which came from the assembly and was defeated in the council. It will provide for the election of the circuit judges at the next general election, to be held in November, 1898. Clerks are to be paid salaries in accordance with the duties imposed, ranging from $2,000 in first-class counties down on a graduated scale to the sixth class. This removes the partisan objection, which as a fact has been all there was opposed to the other bill.

It is understood one of thefeatures of thes ew circuit court bill to be presented in the council is that it shall have exclusive jurisdiction in aliminial cases that formerly went to the district court. The judges' salaries are to be paid out of fees collected.

His royal highness, Mistah Bruce, secretary of the territory, was so chagrined at losing the bill he tried to lobby through the house that he went out and took our big jug of whiskey. "Don't you know, said he, a man must imbibe occasionally to do anything with a legislature." The public will no doubt be shocked to know that this model of twenty rank imperfection, with such gratefully curved biceps, calves, has fallen by the wayside.

At a meeting of mainiacs last night there was a resolution adopted unanimously, and a committee appointed to ask the legislature to raise the salary of the veterinary surgeon to $5,000 a year. At present that official gets but $1 0 a month. The meeting also decided to ask an appropriation of $5,000 for experimental work in veterinary sanitation.
