2. 150th anniversary of the British Empire

**SUDOKU**

Complete the grid so that every row, column, and 3x3 box contains the digits 1 through 9 twice to thrice.

**BRIDGE**

North-South: Valentine West doesn't bid 4 clubs.

**INSTRUCTIONS:** Find as many words as you can by linking words horizontally, vertically, and diagonally. A word must be a complete word. Words can be composed of words already found, forming a chain. A space may be replaced by a letter.

**BOGGLE BRAINBUSTERS BONUS**

We put special brain-busting words into the puzzle grid. Can you find them?

Find EIGHT U.S. PRESIDENTS in the grid. Write down their answers. Write your answers below.

**THE ANNISTON STAR**

The Anniston Star

**WINNER’S CIRCLE**

TOURNOUS

**DIRECTIONS:** Unscramble these six Jumbles, one letter to each square. The Anniston Star, November 9, 2014...
NOV. 8, SUDOKU SOLUTION

The Anniston Star
Every Friday

SUDOKU

We are indebted to Martin J. Smith of ChessBase, author of "Sudokus of Great Britain," for today's puzzle.

1. Empty cell found in the middle of the puzzle.

4. The sum of the row and column is given in the box.
5. The sum of the row and column is given in the box.
6. The sum of the row and column is given in the box.
7. The sum of the row and column is given in the box.
8. The sum of the row and column is given in the box.
9. The sum of the row and column is given in the box.
10. The sum of the row and column is given in the box.
11. The sum of the row and column is given in the box.
12. The sum of the row and column is given in the box.
13. The sum of the row and column is given in the box.
14. The sum of the row and column is given in the box.
15. The sum of the row and column is given in the box.
16. The sum of the row and column is given in the box.
17. The sum of the row and column is given in the box.
18. The sum of the row and column is given in the box.
19. The sum of the row and column is given in the box.
20. The sum of the row and column is given in the box.
21. The sum of the row and column is given in the box.
22. The sum of the row and column is given in the box.
23. The sum of the row and column is given in the box.
24. The sum of the row and column is given in the box.
25. The sum of the row and column is given in the box.
26. The sum of the row and column is given in the box.
27. The sum of the row and column is given in the box.
28. The sum of the row and column is given in the box.
29. The sum of the row and column is given in the box.
30. The sum of the row and column is given in the box.
31. The sum of the row and column is given in the box.
32. The sum of the row and column is given in the box.
33. The sum of the row and column is given in the box.
34. The sum of the row and column is given in the box.
35. The sum of the row and column is given in the box.
36. The sum of the row and column is given in the box.
37. The sum of the row and column is given in the box.
38. The sum of the row and column is given in the box.
39. The sum of the row and column is given in the box.
40. The sum of the row and column is given in the box.
41. The sum of the row and column is given in the box.
