

# Custom Designs Stories

## Story 1 – Lady’s diamond ring with 5 ovals

This is a Palladium (white metal in platinum family) 5 oval brilliant diamond ring and its story begins with customer having 8 – 2.0mm round brilliant diamonds and an idea for her wedding ring. Not wanting a larger center stone to save money but still wanting that “POP” when you see her ring got our wheels turning. Going with more diamonds smaller in size we still got that wow factor with over 2.00 carats total weight without the single 2 carat diamond carat price.

## Story 2 – Lady’s diamond engagement ring

This is a 14k white gold diamond engagement ring and one of my favorite stories to tell. 10 years ago a man bought a ring at Walmart to ask his love to marry him. Knowing the ring was not real she still loved it dearly but with time it would not hold up and the metal gave her a bad reaction on her skin. For her anniversary they had decided to replicate the ring he first gave her on that day he asked her to marry him. With custom design you can change anything you like and they decided to add each other’s birthstones to the side of the ring. Now she has it to cherish everyday with all the sparkle and great metal that will not hurt her skin anymore.

### **Story 3 – Shadow bands or bands to match ring with different movement**

Do you have a ring that is not exactly straight to add a band to? With custom design we can design anything to fit any movement. You may love your existing wedding ring but want to add a band to match the one that is on the other side? They may not make that ring style anymore, this is what is so great about custom sky is the limit and you can adjust anything you want in the process

### **Story 4 – Lady's rose gold tourmaline ring**

Our customer had a gemstone and some metal to reuse to make a ring in remembrance of her mother. Pink was her favorite color and she would not want anything but the best for her mom. Even though not all the metal was 14k rose gold we took the old metal she had and exchanged it for all rose gold. In the end she got this great 14k rose gold pink tourmaline ring to wear and cherish for time to come knowing this was something her mom would have loved.
