Please complete the second page of this form and describe in detail the facts of the alleged violation.

Verification by oath or affirmation

State of Montana, County of PARK

I, Sheila Royston, being duly sworn, state that the information in this Complaint is complete, true, and correct, to the best of my knowledge and belief.

Sheila Royston
Signature of Complainant

Subscribed and sworn to before me this 11 day of Dec, 2012.

Calvin D Sarver
Notary Public

My Commission Expires: 4-24-2014

Statement of facts:

Describe in detail the alleged violation(s) and cite the statute or statutes you believe have been violated. Please attached copies of documentary evidence to support the facts alleged in your statement.

If the space provided below is insufficient, you may attach additional pages as necessary.

This is a complaint concerning violations of Montana's Election Laws and Rules as set forth in Title 13 of the Montana Code Annotated (MCA) and Title 44 of the Administrative Rules of Montana (ARM). My complaint is supported by the following facts and authority.

1. Complainant Sheila Royston is the duly appointed and certified Treasurer for Brad Wilson, one of three unsuccessful nonpartisan candidates in the 2012 general election for Park County Commissioner, District 3.
2. Respondent Marty Malone won re-election in the 2012 general election for Park County Commissioner, District 2.
3. Respondent, in his capacity as Park County Commissioner, knew on or about March 12, 2012, that the local nonpartisan portion of the primary election would not be held.
4. Respondent filed periodic C-5 reports for 03/13/2012 to 05/24/2012; 05/25/2012 to 08/24/2012; 08/25/2012 to 10/20/2012; and 10/21/2012 to 11/21/2012, which serves as the closing report.
5. As more specifically alleged below, Respondent violated the Election Laws and Administrative Rules as follows:

CLAIM 1

Respondent closed out his general election account on 11/21/2012 and disposed of \$2.23 in surplus campaign funds to the Community Closet. Respondent's closing report reflects a primary election account balance of \$300.00. *Exhibit 1.* Respondent accepted primary election contributions even though Park County did not have the local nonpartisan portion on the primary ballot. *Exhibit 2.* Respondent did not incur primary election debt. Respondent did not re-appropriate primary election account funds to his general election account. Section 13-37-240(1), MCA, provides as follows:

13-37-240. Surplus campaign funds. (1) A candidate shall dispose of any surplus funds from the candidate's campaign within 120 days after the time of filing the closing

Statement of facts (continued):

campaign report pursuant to 13-37-228. In disposing of the surplus funds, a candidate may not contribute the funds to another campaign, including the candidate's own future campaign, or use the funds for personal benefit. A successful candidate for a statewide elected or legislative office or for public service commissioner may establish a constituent services account as provided in 13-37-402. The candidate shall provide a supplement to the closing campaign report to the commissioner showing the disposition of any surplus campaign funds.

Respondent violated Section 13-37-240(1), MCA, when he failed to dispose of \$300.00 in surplus funds from his primary election account within 120 days from June 5, 2012.

CLAIM 2

Respondent disbursed \$130.00 (Check 1007; 11/01/2012) to *The Livingston Enterprise*. The purpose of the expenditure is listed as a "Thank You". *Exhibit 1*. The newspaper requires advance payment and charges \$6.50 per column inch. Respondent did not pay for a "Thank You", but rather a 2 x 6 column inch display advertisement to "Re-Elect Marty Malone County Commissioner, The Truth About Trash", which was published on 11/02 2012, at a cost of \$78.00; and a 2 x 4 column inch display advertisement to "Re-Elect Marty Malone County Commissioner", which was published on 11/05 2012, at a cost of \$52.00. *Exhibit 3; Exhibit 4*. Section 13-37-230(1)(a), MCA, provides as follows:

13-37-230. Disclosure of expenditures made. (1) Except as provided in subsection (3), each report required by this chapter must disclose the following information: (a) the full name and mailing address (occupation and the principal place of business, if any) of each person to whom expenditures have been made by the committee or candidate during the reporting period, including the amount, date, and purpose of each expenditure and the total amount of expenditures made to each person.

Respondent violated Section 13-37-230(1)(a), MCA, when he failed to disclose the true purpose of his \$130.00 (\$78.00 + \$52.00) expenditure to *The Livingston Enterprise*.

CLAIM 3

Respondent was repaid \$199.95 (Check 1006; 10/18/2012) for expenditures to Livingston Chamber and Insty Prints. *Exhibit 5, pg. 4*. If a candidate expects to be repaid from the campaign account at a later date, donations must first be recorded and reported as loans. The Livingston Chamber expenditure is identified as an

Statement of facts (continued):

entry fee (\$100.00) for the Livingston Roundup Parade, which would have been incurred on or before 07/02/2012, and should have been reported as a loan on Respondent's C-5 filed August 24, 2012*. *Exhibit 6.*

Complainant is unable to determine when the \$99.95 expenditure to Insty Prints was incurred. Section 13-39-229(6), MCA, provides as follows:

13-37-229. Disclosure of contributions received. Each report required by this chapter shall disclose the following information: (6) each loan from any person during the reporting period, together with the full names, mailing addresses, occupations, and employers, if any, of the lender and endorsers, if any, and the date and amount of each loan.

Respondent violated Section 13-39-229(6), MCA, when he failed to record and report the \$199.95 as a personal loan to his campaign.

CLAIM 4

Respondent has an internet website www.electmartyalone.com. *Exhibit 7.* The website has four pages: Home Page; Successful Projects; About Marty Malone; and Photos. None of the four pages has an attribution or provides sufficient contact information. Section 13-35-225(1), MCA, provides as follows:

13-35-225. Election materials not to be anonymous -- statement of accuracy. (1) All communications advocating the success or defeat of a candidate, political party, or ballot issue through any broadcasting station, newspaper, magazine, outdoor advertising facility, direct mailing, poster, handbill, bumper sticker, internet website, or other form of general political advertising must clearly and conspicuously include the attribution "paid for by" followed by the name and address of the person who made or financed the expenditure for the communication. When a candidate or a candidate's campaign finances the expenditure, the attribution must be the name and the address of the candidate or the candidate's campaign. In the case of a political committee, the attribution must be the name of the committee, the name of the committee treasurer, and the address of the committee or the committee treasurer.

Respondent violated Section 13-35-225(1), MCA, when he failed to provide an attribution or sufficient contact information on his internet website.

* The filing date and reporting period does not comport to Section 13-37-226 and Section 13-37-228, MCA, as clarified for the 2012 election cycles by the Candidate Finance Report Calendar developed by the Commissioner of Political Practices.

Statement of facts (continued):

CLAIM 5

Respondent has an internet website www.electmartyalone.com, which is Powered By Website Builder from GoDaddy.com. *Exhibit 7*. A website utilized by a candidate or political committee to advocate the success or defeat of a candidate or issue is categorized as election material. GoDaddy.com is not a free service. Section 13-37-230(1)(a), MCA, provides as follows:

13-37-230. Disclosure of expenditures made. (1) Except as provided in subsection (3), each report required by this chapter must disclose the following information: (a) the full name and mailing address (occupation and the principal place of business, if any) of each person to whom expenditures have been made by the committee or candidate during the reporting period, including the amount, date, and purpose of each expenditure and the total amount of expenditures made to each person.

Respondent violated Section 13-37-230(1)(a), MCA, when he failed to report the costs associated with the development and maintenance of his internet website.

CLAIM 6

Respondent promoted his election on LivingstonMontana.com. *Exhibit 8, pg.3*. A website utilized by a candidate or political committee to advocate the success or defeat of a candidate or issue is categorized as election material. This in-kind service was offered free-of-charge to all Park County candidates by Roebby Simons, registered agent of the Community Access Development Corporation, which owns and operates LivingstonMontana.com. *Exhibit 9*. In-kind contributions must be accounted for and reported in the same manner as other contributions. Section 44.10.513, ARM, provides as follows:

44.10.531 IN-KIND CONTRIBUTION, REPORTING

(1) For the purposes of Title 13, chapter 37, MCA, and these rules, an in-kind contribution shall be reported as follows:

(a) A candidate or political committee shall report an in-kind contribution on the appropriate reporting schedule and, in addition to the reporting requirements specified in ARM 44.10.511, shall identify it as to its nature.

(i) The total value of the services, property, or rights contributed in-kind shall be deemed to have been consumed in the reporting period in which received.

(b) The value of an in-kind contribution shall be determined as follows:

(i) It shall be reported at its fair market value at the time of the contribution; or

(ii) It shall be reported at the difference between the fair market value at the time of the contribution and the amount charged the contributee; or

Statement of facts (continued):

- (iii) It shall be reported at the actual monetary value or worth at the time of the contribution; or
- (iv) If due to extraordinary circumstances none of these provisions would be appropriate or no reasonable fair market value can be established, it shall be sufficient to report a precise description of such in-kind contribution so received.
- (c) Fair market value shall be the retail price of such services, property, or rights in the market from which it ordinarily would have been purchased by the contributee at the time of its contribution.

Respondent violated Section 44-10-531, ARM, when he failed to report an in-kind contribution received from Community Access Development Corporation.

CLAIM 7

Respondent promoted his election on LivingstonMontana.com. *Exhibit 8, pg.3*. This in-kind contribution was provided by Roebby Simons, registered agent of the Community Access Development Corporation, which owns and operates LivingstonMontana.com. *Exhibit 9*. Section 13-35-227(1)(2), MCA, provides as follows:

- 13-35-227. Prohibited contributions from corporations.** (1) A corporation may not make a contribution or an expenditure in connection with a candidate or a political committee that supports or opposes a candidate or a political party.
(2) A person, candidate, or political committee may not accept or receive a corporate contribution described in subsection (1).

Respondent violated Section 13-35-227(1)(2), MCA, when he accepted an in-kind contribution from Community Access Development Corporation.

6. If elected, a candidate will not receive a certificate of election unless the statements and reports required by law have been properly and timely filed. Without a certificate of election, an individual may not assume the powers and duties of office. Section 13-37-127, MCA.

7. The Commissioner of Political Practices has the authority and jurisdiction to investigate legitimate complaints and to enforce Montana's Election Laws and Administrative Rules.

Complaints must be:

- signed
- notarized
- delivered in person or by certified mail.

...fresh start, Romney said in remarks prepared for delivery in West Allis, Wis. The former Massachusetts governor rarely speaks from prepared text at his political rallies but was doing so as he delivered a new final pitch.

Romney ticked through his achievements — building one business, turning around another, putting the Olympics back on track and political cooperation with a Democratic legislature. He warned that an Obama re-election would threaten another government shutdown and national default.

"I know when I am elected, the economy and the American job market will still be stagnant, but I won't waste any time complaining about my predecessor," Romney said. "I won't spend my effort trying to pass

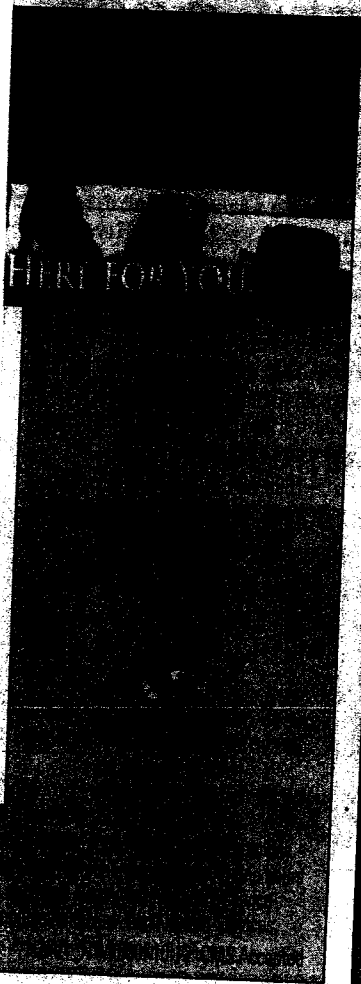

...summer confidence is up to its highest level since February 2008, according to the Conference Board. Other signposts this week showed auto companies with sales gains in October and increases in factory orders and production.

"We've made real progress, but we are here today because we know we've got more work to do," Obama said. "Our fight goes on."

Ohio loomed large on the campaign calendar Friday, with Obama scheduling three stops in that crucial battleground. He had larger rallies in more urban areas elsewhere planned for the weekend. Romney was set to hold two rallies in Ohio — the second a large evening kickoff for the final weekend of campaigning with running mate Paul Ryan, their wives and performer Kjd Rock.

Re-Elect
MARTY MALONE

County Commissioner

The Real Truth About Trash

The Bell Study, an unbiased consulting firm, determined the true cost to dispose Park County refuse is \$120.00 per ton. The entire document is on the county web site.

The cost to build the Chico site is less than \$35,000. The site is safer for the public, easier to use, and includes three recycling containers.

The county commission has actually reduced the refuse tax bill by \$30 per household. Check your new tax statement.

Park county is one of the last counties in Montana to convert from inefficient front load garbage trucks to efficient roll off trucks.

 ed in praying in front of the
 Christians can come together

Water Works Building

Agenda items include:

- Discussion on the possibility of selling or demolishing the Water Works Building, which is located near the intersection of River Drive and South Ninth Street.
- An ordinance establishing a new two-hour parking limit on the north side of East Callender Street between B Street and the alley between B and C streets.
- Resolution No. 4332, which sets the terms for Park County bringing its solid waste to the city's transfer station. The city would charge the county a tipping fee of \$53 per ton, with pro-rated costs for other types and amounts of solid waste.
- Several "housekeeping" items, including: adjustments to the city's current fiscal year budget; an agreement with an auditing firm; an agreement with a software company for a new minutes and agenda program; and a memorandum of understanding with the state's Depart-

with Park County and Montana State University Extension for economic development activities.

Also, City Manager Ed Meece will present information about the city removing two trees, deemed public hazards, which are located at the northeast corner of Callender and Third streets, adjacent to the Ebert Apartments. The meeting begins at 6:30 p.m. in the Community Room of the City-County Complex. If the front doors are locked, use the building's back doors.

To view the full agenda and the accompanying information packet, go to www.livingstonmontana.org or view a hard copy at the Livingston-Park County Public Library.

To watch the meeting streaming live on the Internet, go to www.livingstonmontana.org, click on the "Living" tab, then look for the "Livingston City Commission" section on the left. Then click on the "Livingston Montana TV" tab on the left.

Why I am Running for Re-Election

Four years ago I decided that the Park County Commission was taking Park County in the wrong direction. I knew that I could do a better job. During the past four years I have worked hard to keep all my campaign promises. I am very proud of my record as your Park County Commissioner. I would appreciate your vote to allow me to continue the progress that we have started.

The number of county employees has actually been reduced, one employee has been added to the road department, an open door policy has been kept, citizens are welcome to come into the commission office and express there concerns.

Four years ago Park County faced a number of lawsuits. All of the law suits have been settled and litigation has been kept to a small minimum.

I said that I would take an active role to insure that state and federal government activities in the county would be watched and that I would express the opinions of the citizens. I expressed the Commission's concerns to the Interagency Bison Management Group that they did not have an adequate plan to protect the health and safety of Park County citizens. We are still holding that opinion.

I encouraged the Commission to use an internet auction system to dispose of old road equipment and other assets that are no longer used by the various departments. The use of this internet auction service has zero cost to the public and buyers bid on the equipment from across the United States. For example, we sold two dump trucks to an

individual in Arizona.

I have worked hard to ensure that county residents enjoy an efficient and cost effective solid waste program. We now have a master plan which will be presented to the public in the next two months. Before any changes are made, the public will certainly have the opportunity to provide input.

There is still work to be done. We need to improve the road department efficiency. We need to do more with less. We recently signed an agreement that will pave or re-pave the Rock Creek Road near Clyde Park. This road has suffered substantial damage from all the heavy traffic going to the Crazy Mountain Ranch. They have agreed to pay for the re-building of that road at their expense. Good news for Park County taxpayers. I would like to encourage major sub-divisions to take an increased role in road maintenance.

Thank you for your confidence in me for the past four years

Successful Projects

PROVIDING A COST EFFECTIVE COUNTY GOVERNMENT

It is very important to keep the costs of county government as low as possible. In the past four years, the Commission has not added any employees, in fact there are fewer employees working for Park County than in 2009. We did add one employee at the road department and are using temporary help during the summer months in an effort to improve the roads in the County.

We are currently in the process of re-organizing the refuse department that will reduce costs and improve services. In addition, we are improving the re-cycling efforts that citizens have requested during our spring meetings.

NINTH STREET ISLAND BRIDGE REPLACEMENT

When I took office in 2009 the people of 9th Street Island were served by a temporary bridge that was placed on the damage bridge. Unfortunately, the temporary bridge was severely limited by weight limits that would not allow the removal of debris that typically lodged under the bridge and was the primary cause of failure. We had 60 short days to write a contract to remove the old bridge so the temporary bridge would not wash down the river due to the expected high flows.

I contacted Senator Tester's Office and requested special funding for the bridge due to the unique circumstances. Park County received a \$645,000 grant from Federal Highways. The entire project was completed using less than \$75,000 of county bridge funds.

COOKE CITY COMMUNITY CENTER

Using resort funds, a new Community Center was funded using a county backed loan that will be paid back by the proceeds from future resort taxes. The project was done on time and under budget thanks to the people of Cooke City. It is a very popular place for tourists to stop and use the restrooms and take time to understand the history and culture of the area.

JUVENILE DETENTION COSTS REDUCED

Probation of juveniles is very important but also very expensive. Park County used to send all juveniles to a detention center at a cost of nearly \$400 per day. Plus of juveniles were away from home.

The Commission, with the assistance of the juvenile probation officer, contracts with a firm to supply anklets that track the location of these individuals. If they leave the house, officials are contacted. These anklets cost \$12 per day and save nearly \$380 per day.

SENIOR CITIZENS CENTER REMODEL

The Senior Center in Downtown Livingston was in bad need of updating, The entire building needed help and updating to current standards for the seniors of the county. Using a million dollar grant from USDA, the main dining/visiting hall was totally remodeled, the ceiling lowered, new front windows and a new kitchen. Using the same funds, all the apartments in the upper levels were remodeled. It is now a wonderful and safe place for our seniors.

RESURFACING ROCK CREEK ROAD

After several years of negotiation with Crazy Mountain Ranch they have finally decided to provide funding to resurface the Rock Creek Road near Clyde Park. This road was a "double shot" payment project that lasted very well until all the construction begin to occur at the Ranch. Our road counts showed that the ranch traffic was 90% of the traffic on the road. This project will make the road a quality road for decades to come and improve accessibility to the ranch that is a major employer for Park County.

HVAC INSTALLATION IN PARK COUNTY MUSEUM

The Park County Museum is located on the North Side of Livingston in a retired school building. The Museum in supported by a small mill levy from Park County and considerable donations from the non-profit friends of the museum. For years, the museum only had two small offices heated and the museum filled with wonderful exhibits from Park County was basically not visited all winter and extremely hot in the summer.

Thanks to a grant from the State of Montana, we were able to install an up to date Heating and Cooling system in the structure without impacting the structure of the building. In addition, the architect was able to reduce the heat loss from old windows without altering the looks of the exterior. The Museum is now open for visitors all winter long.

CREATED THE ECONOMIC DEVELOPMENT DISTRICT WITH GALLATIN COUNTY

Economic Development is very important to Park County. It is very important to improve the profitability of the current local businesses in the County and to be able to attract compatible businesses to Park County. The Park County Commission has partnered with Gallatin County to create the Rocky Mountain Economic Development District. Each County has board members on the governing board of this district and the District is charged with assisting businesses to be more profitable. These profitable businesses will in turn increase employee numbers. The District is less than six months old but already has reaped some benefits.

In addition, Park County has contracted with Prospera Business Network to manage the County's revolving loan fund. This fund was sitting idle with the County and the Commission felt it was time to use the funds for the proper purpose. The revolving loan fund is used for new business that have yet to develop a proven success and is typically matched by a bank.

REDUCED SOLID WASTE EXPENSES SAVING TAX DOLLARS

In an successful effort to settle a lawsuit against the County concerning the operation of the refuse transfer station, the Commission contracted with an engineering firm that specializes in solid waste evaluations. This study emphasized the costs of various disposal methods with a special emphasis on incineration. The study clearly showed that while incineration may have a place in disposal the costs to the public would be very large due to the relatively small amount of refuse that Park County generates.

The study showed that the City and County should not have two systems for our size of County wide population. The study showed that we could save at least \$60 per ton by contracting with the City.

RESTORATION OF CIVIL WAR CANON

The canon was found in a storage shed near the landfill. A decision was made to correctly restore the canon to its original glory. The canon was donated to Park County by the Veterans of Foreign Wars and the Commission felt it was to do the restoration correctly.

I contacted a Anvil Wagon Works to do the project. Jim took the time to find the history of the canon and seek the original parts for the canon. The canon was restored with oak from North Carolina that Jim found and has all the original iron. The VFW recently donated 5000 dollars for the construction of a suitable building on the courthouse so everyone can view the canon. It is stored at the museum until that happens.

RESURFACED THE AIRPORT RUNWAY

The Livingston/Park County airport is important for ambulance services and for those folks that need to travel in a hurry. The runway was in need of major renovation. The County Commission and Airport Board sought and obtained a grant from FAA that resurfaced the runway and parking ramps.

DESIGNATION OF SHIELDS AND BOULDER RIVER ROADS AS FOREST HIGHWAYS

This designation is very important for the tax payers of Park County. As most residents know, much of the impact to the roads is caused by forest visitors. The Forest Highway designation allows Park County to apply for Federal Highway dollars to upgrade both roads and reduce the impact of the upgrade to local residents. The Boulder River Road is scheduled to a complete rebuild in 2014. For those who are not aware of the length of the road, it is over 50 miles in length and wanders back and forth between Park and Sweet Grass Counties.

YELLOWSTONE PARK ARCH PROJECT

This is an exciting project that will unfold in the next three years. The project is designed to change the entrance to Yellowstone National Park to accommodate the changes that have occurred in the past 100 years. The original arch and entrance was aligned with the county road that travelled up the West side of the river past Corwin Springs, Electric and basically paralleled the railroad tracks.

The project will allow for parking, an alternative route and a beautification project designed to encourage people to stop, enjoy the arch, shop in Gardiner and receive an introduction to the Park. This is also the entrance to Montana for those who entered the Park via another entrance.

It is certainly an exciting project that has the cooperation of Park County, Yellowstone Park, the Park's concessionaire, the Gardiner School system, the Yellowstone Park Foundation and the Yellowstone Association.

Ballot Information - General Election - November 6, 2012

The 2012 ballot for the General Election has three pages, on two sheets. You will vote both of the ballot sheets you receive. The first sheet has a front and a back, the second sheet has one side to vote on.

House District 62 is on the ballots for Precinct 1-HD 62, 2, 2B, 3 and 4.

House District 61 is on all of the other precincts ballots.

There are two Commission District positions open in this election. Commissioner District 2 and Commissioner District 3.

Everyone will receive a ballot with both commission races on it to be voted on.

In November of 1986 Park county voters passed a vote that the County Commissioners are to be nominated by district, elected at large.

13-12-205 Montana Title 13 requires the names of the candidates to be rotated. The candidates will appear in different orders in the different precincts.

Are you registered to vote?

Are you registered to vote at your current address? Have you had a name change that needs to be updated?

Do you know:

That close of regular voter registration for the November 6th General Election is 5 PM on October 9th?

You can request to have your ballot mailed to you?

You can come into the Clerk & Recorder's office and vote between October 9th and noon on November 5th for the November 6th General Election

Come visit the Clerk & Recorder's office for more information or call 406-222-4110

Park County Offices

Clerk of District Court

June Little, No Party

PO Box 121
Livingston, MT 59047
406-223-7777
jlittle@wispwest.net

My name is June Little and I am running for re-election to the office of the Clerk of District Court for my 8th term. I started working in the Clerk of District Court's Office in 1980 as a Deputy and was appointed as Clerk of District Court in 1983 and was first elected in 1984. I have worked in the Clerk of District Court's Office for a total of 32 years.

I have attended Court Management Seminars and have taken Continuing Education courses to further my education in all Court procedures. I became a Certified Clerk of District Court in 1991 and have met requirements each year to remain certified. I feel that education, experience, and integrity are key elements to ensure a professional office. I am very active in the Montana Association of Clerks of District Court and have served on the executive board, education committee, and the automation committee. I served as President of the Association in 1987 and will serve as President again in 2014.

I am a lifelong resident of Park County and grew up in the rural areas of Paradise Valley and the Main Boulder. I attended local schools and graduated from Park County High School in 1964. I have one son, Scott, who is golf pro and resides in Arizona with his wife, Karin and my twin granddaughters that just turned 4 years old. I have actively supported many community programs and have been a member of various Livingston Organizations. In addition to my District Court experience, I worked in the Livingston Business Community for 13 years in the field of accounting, which has proven to be invaluable in the administration of my office, especially in the area of budgeting.

Mandated by State Law in over 800 Statutes, the Clerk of District Court's office is responsible for issuing marriage licenses, notifying citizens to serve on juries; the filing of papers in civil, probate, sanity cases, adoptions, juvenile, and criminal proceedings; receiving and disbursing restitution, fines, and child support payments. The Clerk of District Court also works hand in hand with the District Court Judge and as of January 1st, 2013 we will have a new judge. I feel that my knowledge and experience of the office and the office procedures will be very important in that transition. .

The Clerk of District Court's Office handles many matters for the public. I stay current on state laws and am able to answer all questions posed to me about filing procedures. I also find answers for people who are unaware of how the judicial system works without practicing law. Serving the Public is also another very important aspect of my office..

When elected to another term, Little will strive to maintain the integrity of the office, provide competent, courteous service to the users of the Court and insure that the taxpayers of Park County receive the greatest benefits for the dollars expended for court services.

Local government is where government starts. My phone number is in the phone book, my cell phone is listed on the Park County website at parkcounty.org. It is easy to contact me either at the office or via electronically. I encourage citizen participation in the process. Citizens can enter the Commission Chambers are express their concerns during a meeting

or in between meetings. Our agenda is listed in the Enterprise, weekly papers, on the internet and in the hall in the Courthouse.

I believe that this Commission has encouraged citizen participation in all decisions. We have dramatically improved the webpage, increased the places where the agenda is published, used social media to encourage citizen participation and encouraged citizens to express their opinion by creating a welcoming atmosphere in the commission chambers.

This Commission welcomes and encourages citizen attendance at all County Commission meetings.

This is a transparent government.

Since taking office in 2009, the current commission has submitted a budget on time and balanced every year. That is more the federal government can say. I am committed to keeping county government efficient and cost effective.

A long term pressing issue is the dependency Park County (and most western counties) has on revenues from the Federal Government. At the present time, road department revenues comprise nearly 50% of the road budget. The Sheriff's department budget is nearly 18% federal funds.

With the debt being shouldered by the Federal Government, Congress may consider reducing PILT and SRS funds. Local government is heavily dependent on real estate taxes and county government receives less than 18% of those taxes.

The Commission must continue to improve the efficiency of county government through the use of technology, cross training of employees, and through the use of fees for services like sub-division review, septic permits, etc. In addition, Park County must continue to ensure that the Federal and State governments pay their fair share since the government owns more than 50% of county property.

Certainly the most underfunded department is the road department. Twenty years ago there were seventeen employees, now there are nine. In the past four years, the current commission has increased the efficiency of the department by paving high traffic roads, instituting a road priority system and counting the traffic on county roads to insure the higher traffic roads get the most attention. In addition, the commission has ordered the road supervisor to water, grade and then use a vibratory roller to keep roads smoother for a longer period.

About Clint

CLINT began working for Livingston's public utilities in 1981. In 1984 he was appointed Foreman of the water department. At that time the water department was losing over 50% of its water due to leaks and inaccurate meters. The department was also experiencing 18 water main breaks per year; 30% of the fire hydrants were not operable, and 40% of the main-line valves were broken. In response to these problems Clint developed a 20- year replacement plan to repair leaks, replace valves and hydrants, and install new water meters. By 1990 water losses were less than 15% and half the meters were replaced. By 2000 water losses had been reduced to less than 10%.

Clint was promoted to Superintendent of utilities in 1990, responsible for Livingston's waste water treatment plant and distribution system. A major concern at that time was that the plant was treating up to two million gallons per day (1 million gallons above normal). Clint and his team determined that most of this water was caused by ground water infiltration into sewer mains. They took the necessary steps to mitigate the problem and as of today the plant is treating only 700,000 gallons per day.

In 2002 Clint was again promoted, this time to Public Works Director. His first task was to lower the cost of garbage collection for the City of Livingston. Within 18 months garbage collection operations were 100% automated, department employees were delegated to other areas in the city, and cost were reduced for Livingston citizens.

In the last 20 years Public Works has been awarded almost \$20 million dollars in grant funds, allowing them to make repairs and upgrades without additional cost to the tax payer. In the last 10 years Clint has developed strong working relationships with all other local utilities as well as state and federal agencies. As a result, the Montana Department of Transportation has provided an estimated \$14 million of improvements in Livingston and is planning to spend another \$10 million over the next two years. Many of these projects are due to Tinsley's long term planning and strong maintenance programs.

Clint is married to his wonderful wife Angie of 20 years. He has three daughters, who keep him on his toes and ensure his mind stays flexible and open to new ideas.

Park County's Needs and Issues

Park County needs long-term maintenance plans for roads, bridges, culverts, and cattle guards. A five-to-ten year plan provides a blueprint of the county's needs, wants, and financial resources. Long-term planning helps balance budgets and provides the most efficient use of resources.

We need clearly stated goals for county government employees, and we must hold them accountable for their performance. Clearly stated goals provide benchmarks for citizens to track their government's

Dear Park County Candidate,

LivingstonMontana.com*, Community Web Site offers all Park County Candidates the opportunity to list Information about their Positions, Web Pages, Facebook Pages or other sites that have information about their positions. We do not edit any information and will post what you send us in the format that we receive it in. The deadline for this is November 2nd

We also would like a picture of you to post with the personal information we have. Click on the link below to see what is listed

<http://www.livingstonmontana.com/access/elections2012.html>

This year, as always we give the election results over night, the day after election day. This information comes from the Park County Clerk Records Office.

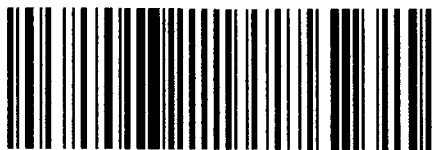

One more thing: now that we have 'Video Windows' on our site we are looking for candidates that have short videos about their positions. The deadline for this is October 25th.

Thank you for your reply, Roeby Simons, roeby@livingstonmontana.com
