Everyone knows LaBrozzi Insurance Group is your "go-to" for your Medicare coverage!

Are you totally confused about coverage, plan choices and prescription options?

You are not alone! It seems everyone is!

There is an abundance of material always in your mailbox, inbox and on the TV, but much of it is very confusing. You may be afraid of making the wrong decision. Don't be afraid - just call Debbie at 368-5312!

There are several Medicare Supplement plans available from a multitude of companies that we represent, but if you are looking for a plan that covers all your Medicare copays and deductibles, then you should consider Plan C or Plan F. If you don't mind a minimal amount of copays and paying the Part B deductible yourself (\$166 annually for 2016), then Plan N may be what you need and you would pay a lower premium. You can freely go to the doctor, have testing or be hospitalized without worrying if you are in network.

Another option is Medicare Advantage plans that in some cases offer a lower premium in exchange for you covering some of your health care costs, such as a copay for xrays, MRI's, ultrasounds, blood work, ER visits, office visits, durable medical equipment, lengthy hospital stays, etc. Prescription coverage is normally included in these plans and they utilize a network, unless you are on vacation and become ill.

There are also several Prescription plans available - pricing can depend on your medications and pharmacy used.

Be Medicareful!!! Call LaBrozzi Insurance Group today!
Bring your questions to Debbie at 368-5312 and she will be happy to help you make the right decision.
