Pharmaceutical Corporations Are Trying To Halt This Breakthrough Scientific Discovery That Is Poised To Make 90% of ALL Known Prescription Drugs Obsolete!

Because Big Pharma Only Makes Money If You Stay Sick!

Imagine for a moment living your life without sickness, without soreness ... without cancer or diabetes ... without the aches and pains of aging... without allergies ... Living your life free of heart, lung and liver problems, free of discomfort ... all replaced by total well being and limitless energy, wrapped in a body of wrinkle free youthful looking skin.

This new Breakthrough Scientific Discovery (called the Cellular Repair Infuser) has been PROVEN to make that possible... but the big drug companies desperately want to halt its release in North America ... because this scientific breakthrough has the Real potential to make almost EVERY known prescription medicine obsolete ... wiping BILLIONS in sales and profits from their books... and it is scaring the corporate giants to death.

But thankfully, as of today, they have NOT been able to halt the release of the Cellular Repair Infuser ... So, if you are over 40 (and wish your weren't), suffer from ANY pain or discomfort, or simply want to look and feel younger – the Cellular Repair Infuser WILL transform your health and life – by enriching your drinking water with pure hydrogen so it effectively rejuvenates your cells and washes away toxins! I spoke with Mark Anderson, the head of product development at Cambridge Laboratories (the Canadian Company behind the Cellular Repair Infuser in North America) to learn more about this remarkable new product, to understand how it works, and to learn why the drug companies are set to explode over it.

Mark explained, "The Cellular Repair Infuser is a true medical miracle, because it is not a drug ... it is the key to TRANSFORMING regular tap water into HIGHLY hydrogenated water (that repairs all 37.2 trillion cells in your body) ... revitalizing and rejuvenating every part of you... from joint, muscle, heart, lung & bone health ...to hair growth and skin problems ... to brain function and more. Every single system in your entire body is reset and repaired - while toxins are simply expelled with every bathroom visit."

And why do drug companies fear the Cellular Repair Infuser? Simple, it's inexpensive and effective; using it is as simple as drinking a few glasses of water, it makes virtually every prescription medication obsolete.... And, they don't hold ANY of the patents on it. (USA patent #USP 7,189,330, Canadian Patent # 2,475,658 and Japanese Patent # 4252434).

Big Pharma only makes money if you hurt, if you are tired, or if you are sick. They don't want you to feel well, because that would destroy their sales and profits. They are so concerned because now the power to feel good and be well is entirely in your hands...

Looking YOUNG and Living PAIN FREE is possible through total cellular rejuvenation ...

and is as simple as drinking three glasses of hydrogen enriched water a day.

So what is The Cellular Repair Infuser exactly, and how does it work?

The Cellular Repair Infuser is a bio-engineered cylinder (picture a pure white test tube) that has been infused with highly refined, Ultra-Pure magnesium (this is a simplified explanation of a very complicated manufacturing process).

When you are ready, simply place the Cellular Repair Infuser "Cellular Rejuvenation Stick" into any sealed container of water and let it sit for 120 minutes. During the 'two hour infusion period" the hydro-reactive magnesium in The Cellular Repair Infuser elicits an ALL NATURAL chemical "bio-reaction" – turning a regular glass of water into a "highly hydrogen enriched, cellular cleansing" compound - guaranteed to end the aches and pains of aging. And that's just where the miracle begins ...

By consuming only 3 glasses of Hydrogen enriched water daily, you will scrub, rejuvenate, and repair all 37.2 trillion cells in your body! You will give your body a powerful "washing" from the inside-out... turning "dirty and damaged" cells ravaged by oxidation and time - into "reborn, repaired, and cleansed cells" – functioning the way they were meant to... just as they did at birth.

Dr. Atsunori Nakao, MD, professor of surgery at the University of Pittsburgh, summarized the process behind the Cellular Repair Infuser by saying, "You no doubt recall that a molecule of water, or H2O, consists of one atom of oxygen bound to two atoms of hydrogen. In our bodies, hydrogen functions as an antioxidant, helping to prevent and repair cell damage

and inflammation, to protect our DNA and combat out-of-control cell growth (which is the root cause of many diseases including cancer). The problem is that the hydrogen in normal water is not very accessible to the cells in our bodies. That's because "free" hydrogen (hydrogen molecules not bound to other molecules) is relatively rare and, being a light gas, evaporates quickly. The point of hydrogen enriched water is to provide hydrogen that is easy for our cells to utilize."

And it is the hydrogen enriched water produced by the Cellular Repair Infuser that WILL REPAIR all 37.2 trillion human cells just as starfish in NATURE repair themselves on a cellular level, (can actually re-grow lost limbs). Now of course the Cellular Repair Infuser will not allow you to re-grow limbs ... but the hydrogen enriched water it creates has been CLINICALLY PROVEN (in over 90 peer reviewed scientific research papers, including the much heralded presentation to NASA by Dr. M.P. Schoenfeld promoting its use for astronauts) to:

✓ Soften and Reduce Wrinkles
