New case, same face

Juliette Lewis returns as Andrea Cornell in 'Secrets and Lies'

By Kyla Brewer

TV Media

here's nothing like a murder mystery to keep viewers on the edge of their seats. Television writers spin tales of tangled webs all the time, but not all of them make it past the first season.

One fall drama is enjoying a second kick at the can as determined detective Andrea Cornell (Juliette Lewis, "Cape Fear," 1991) tries to solve another case in a new episode of "Secrets and Lies," airing Sunday, Oct. 16, on ABC. The first season of the ABC drama co-starred Ryan Phillippe ("Cruel Intentions," 1999) as Ben Crawford, who was the prime suspect in the death of a young boy.

Season 2 chronicles a completely different case involving the murder of a beautiful young woman. Unlike a lot of TV dramas that follow the same storyline season after season, "Secrets and Lies" is an anthology series with several new characters and a whole new plot. Introducing a new mystery could be risky, but the show is in good hands with Lewis, who's been known to take a few risks herself. Renowned for her range, actress and rocker Lewis has played everything from a mentally challenged young woman in "The Other Sister" (1999) to a homicidal maniac in "Natural Born Killers" (1994).

She's taken on yet another challenge in "Secrets and Lies" as she portrays buttoned-up Det. Cornell. She talked about her part during a recent appearance on ABC's "Good Morning America."

"This role is so different from anything I've ever done because she's unemotional and you have to be in that line of work," explained Lewis, who went on to rave about her co-stars: "I'm so proud of my cast!"

That new cast includes Michael Ealy ("Barbershop," 2002) as Eric Warner, a well-educated man on the verge of taking control of his family's private equity firm in Charlotte, North Carolina. Unfortunately, his good fortune

Juliette Lewis as seen in "Secrets and Lies"

takes a turn for the worse when his new wife, Kate (Jordana Brewster, "The Fast and the Furious," 2001), turns up dead during a party celebrating his success. Ealy started out performing in off-Broadway productions before getting his big break on the big screen in "Barbershop." He's also appeared in such films as "2 Fast 2 Furious" (2003) and "Seven Pounds" (2008), as well as in the television series "Flashforward" and "The Good Wife."

Cornell is immediately suspicious of Warner, but, of course, his family has plenty of secrets as well. Terry O'Quinn ("Lost") portrays Eric's charming father, John, who built his company on a strong foundation of honesty and morality. Kate's death casts a shadow on his company and its future. O'Quinn is best known as John Locke in J.J. Abrams's "Lost," but he's been working steadily in the industry for decades, having appeared in such movies as "Young Guns" (1988), "Tombstone" (1993) and "The Rocketeer" (1991). His television credits include "Alias," "JAG" and "Hawaii Five-0."

Actress and dancer Mekia Cox ("90210") plays Eric's sister, Amanda. A criminal attorney for the public defender's office, Amanda is very familiar with Cornell, and is fiercely protective of Eric as a result. Cox appeared as a dancer in the Michael Jackson concert series "This Is It," and like O'Quinn, she has a connection to Abrams, having had a role in his canceled spy drama "Undercovers."

The supporting cast also includes Charlie Barnett as Patrick, Eric and Amanda's younger brother. Barnett is no stranger to television audiences, who may recognize him as firefighter/ paramedic Peter Mills from NBC's "Chicago Fire" and "Chicago P.D." Kenny Johnson has joined the cast of "Secrets and Lies" as a character named Danny, another potential suspect in Kate's death. With roles in some of television's hottest dramas, Johnson has been a virtual fixture in prime time for several years, and has had memorable appearances in such series as "The Shield," "Cold Case," "Saving Grace," "Sons of Anarchy," "Burn Notice" and "Dexter."

The suspects aren't the only ones with secrets in "Secrets and Lies." Everyone seems to have something to hide, even Cornell. As the season wears on, Cornell will be forced to deal with her own dark revelations.

Based on Stephen Irwin's Australian television series of the same name, ABC's "Secrets and Lies" was developed for North American audiences by Barbie Kligman ("Private Practice"). As a producer and writer, Kligman has also had a hand in such prime-time successes as "The Vampire Diaries," "CSI: NY" and "Law & Order: Special Victims Unit." Aaron Kaplan ("The Mysteries of Laura"), Tracey Robertson ("The Strange Calls") and Nathan Mayfield ("Texas Rising: The Lost Soldier") also serve as executive producers.

ABC offers fans even more content through the online companion series "Cornell Confidential." Available each week immediately following the show's East Coast broadcast on ABC. com/SecretsandLies and the ABC app, the program features an in-depth look at the investigation, as well as additional clues, scenes and sometimes cliffhangers.

While critical reviews of the first season of "Secrets and Lies" were mixed, the show consistently drew more than five million viewers, no small feat in today's cutthroat prime-time landscape. Lewis and her new castmates have all sorts of new twists and turns to keep viewers intrigued this season. Check out a new episode of "Secrets and Lies," airing Sunday, Oct. 16, on ABC. THE

> o paraphrase a rather famous marketing slogan: It isn't easy being cheesy. Well, as Sarah Sharratt is discovering in her new French home, that saying isn't exactly true in every country.

The American-born and suburbia-raised mother of two is a bona fide cheese lover, and now that she's living in the French countryside, she's surrounded by some of the best in the world.

The other thing that she's surrounded by is TV cameras. "Up-Rooted," which premiered Oct. 1 and continues to air Saturdays on Cooking Channel, follows the Cordon Bleu-trained chef as she adjusts to her new home in a foreign land, with a particular

focus on French food and food

The universal language: When in

France, eat as the French eat

Along with her two kids, three dogs and flock of chickens, she's using the rural French countryside to find the ingredients and inspiration for her culinary creations.

In this week's episode, airing Saturday, Oct. 22, Sarah has some of her new friends over for a seasonally appropriate meal. It's springtime in the French countryside (in this episode, at least), and she's serving up dishes using local ingredients.

How does freshly picked white asparagus with sauce gribiche (a mayonnaise-like, egg-based dressing) served along with a freshly made duck pate and finished with a lemon posset (a sweet and frothy milk-based drink) sound?

screams "French countryside," but while Sarah lives far from the cosmopolitan bustle of the country's big cities, she's also keeping her finger on the pulse of what's hap-

Next week, she visits Paris to check out the famous city's modern food scene. She heads to the markets and checks out luxury food shops to get a taste for what sorts of foods Parisians are enjoying — she even gets a private cooking lesson from one of the city's hottest chefs! It's definitely been a culture shock for the American to move to the rural part of a country where she doesn't even speak the language well, but the language of food is universal plus there's always the cheese. A new episode of Sarah Sharratt's "UpRooted" airs Saturday, Oct. 22, on Cooking Channel.

It's a midday meal that just

pening there.

Sarah Sharratt stars in "UpRooted" culture.

Lifestyle website The Stir estimates that they earn at least \$50,000 per episode — it really is just a guess, but the show is big business for TLC, so they're certainly being compensated well.

But the family is also engaging in a range of side ventures. work for the state government in Utah, but when the family moved en masse to Las Vegas, she switched to a career in real estate.

show has been "a huge asset" to her real estate business, and that gets at the reality of their situation: It seems that the Brown family makes most of its money either
