

ARIZONA VEIN & VASCULAR CENTER

Residents of the East Valley can look to Arizona Vein & Vascular Center for "quality vein and vascular care in an environment that is comfortable and convenient for them," said founder, L. Philipp Wall, MD, RPVI.

As simple as that may sound, for the thousands who experience leg pain, discomfort and swelling; bulging veins; pain in the calves, thighs or hips; pain when walking, climbing stairs or doing activities and a host of other symptoms—the kind of care provided at Arizona Vein & Vascular Center can be helpful, even life-changing.

Dr. Wall and the other specialists in the group are all board certified and specially trained, in vascular disease for varicose and spider veins, leg bypass, stent placement, venous disease treatment, peripheral artery disease, aneurysms, thoracic outlet syndrome and other vascular conditions.

"Our patients run from young to old. Most are experiencing day to day leg, hip or ankle pain and think it's 'normal.' We like to take those people and educate them on the fact that they don't have to live that way."

Arizona Vein & Vascular Center takes all forms of insurance. They use state-of-the-art equipment and, as much as possible, take a "minimally invasive approach that results in faster recovery, greater patient satisfaction and excellent outcomes."

Patients also are pleased with the exceptional care they receive from the highly trained veteran staff, said Dr. Wall.

Dr. Wall has been named a three-time recipient for the Patient's Choice Awards and was recognized as a US News & World Report Top National Doctor in 2012. He has also appeared on Channel 3 Your Life A to Z with

Lisa Haffner featuring the respected Dr. Oz and other TV appearances and has published numerous articles and delivered many presentations about vascular conditions to both his medical peers and the community.

Still, ranking and accolades aside, he said his concern is with each patient. He invites anyone experiencing symptoms to make an appointment at one of their locations across the Valley, including a "beautiful new, state-of-the-art office in Chandler, at 1475 W. Chandler Blvd.

"Let us help you with your pain or issues and answer any questions you may have," he said. To learn more or to schedule an appointment, visit www.AZVascular.com or call 1-855-AZ-VEINS.

Patient's Choice Award

Brand new state-of-the-art center in Chandler!

"I have the utmost respect and admiration for Dr. Wall and his staff. Dr. Wall was very articulate, calming and confident, I couldn't have asked for a better doctor. Before I was diagnosed with Thoracic Outlet Syndrome, I was in constant pain and discomfort. From my first diagnosis to the moments leading up to surgery when he told me he was going to fix me, he looked me in the eye and I didn't see an ounce of doubt, it was inspiring and comforting. His staff was extremely friendly ... and took great detail in every aspect of my condition. The ultrasound techs, the front office people, everyone did a tremendous job."
