**LOOKING BACK**

In 2003, the 54th president of the United States, George W. Bush, made a trip to Iowa. It was his first official visit to the state as a candidate running for the office of the presidency. Bush had been an active supporter of American values and principles since his days as a university student, and his visit to Iowa was seen as a significant moment in his campaign. Bush visited several locations in Iowa, including Des Moines, Cedar Rapids, and Sioux City, and met with local officials and activists. The visit was seen as a demonstration of Bush’s commitment to the American people and his willingness to engage in the political process.

**COMMISSION: State has a staff of 33**

The March 2021 budget for the Commission of 33 states was $2.1 million. The staff includes 33 members, who are responsible for the oversight of the state’s financial operations. The budget includes funding for salaries, benefits, and other expenses associated with running the Commission.

**RAGBAI: Responding to a survey said they would like the two events to return**

RAGBAI, the organization that organizes the two events, responded to the survey and said they would like the two events to return. The survey was conducted among RAGBAI members, and the results indicated a strong support for the return of the two events.

**REPORT: Suicide rate as high as it has been since 1987 when it was 12.8 per 100,000**

The suicide rate in the United States is at a record high, with 4.9 per 100,000 people dying by suicide each year. This is the highest rate since 1987, when the rate was 4.6 per 100,000. The increase in suicide rates is being attributed to a number of factors, including the ongoing pandemic, economic challenges, and social isolation.

**RETAIL: Figure also provides some insight into the minds of consumers**

The retail sales numbers are an important indicator of the health of the economy. The numbers provide insights into consumer behavior, which can provide valuable information for businesses and policymakers.

**SHOWING: Bacterial outbreak at a meat processing plant**

A bacterial outbreak at a meat processing plant has been reported. The outbreak is being investigated by health officials, who are working to determine the cause and prevent further infections.
