New names added to Klamath Falls memorial

Sept. 11 ceremony honors fallen heroes

By **TRISTAN HIEGLER**
H&N Staff Reporter

After several years of research and work, the names of 28 fallen local soldiers have been added to the Memorial Shaft that stands outside the Klamath County Courthouse.

The memorial honors Klamath County men and women who gave their lives in every United States conflict since World War I. During a dedication ceremony

Thursday afternoon, a plaque with the additional names was revealed to the public.

Approximately 70 people attended the ceremony, including representatives from Kingsley Field, the Oregon State Police, the Klamath Falls Police Department, Klamath County Fire District No. 1, the American Red Cross and other public safety agencies.

Setting the Scene

PART II

Ideal location

OIT hosts film cast, crew during shoot

Editor's note: This is the second in a three-part series that will take a closer look at the filming of "Brother in Laws," a comedy being shot on location in the Klamath Falls area.

By **HOLLY DILLEMUTH**
H&N Staff Reporter

Early one morning at Lake of the Woods Resort, Jim Watson was in his bedroom at his west lakeside cabin, wide awake and listening to scenes from "Brother in Laws" being filmed outside.

Watson told the Herald and News earlier this week that the jokes he heard outside that night made him smile.

"I just had to laugh," he said. "It becomes like this Comedy Central kind of place."

The comedy, starring Bill Pullman, Rita Wilson and Saturday Night Live actors Taran Killam, Mike O'Brien and Bobby Moynihan, and Gillian Jacobs ("Community"), has been filmed all over the Klamath Basin, including Watson's cabin in late August and September.

Arab allies promise to fight Islamic State group

Turkey proves exception to support for Obama's plan

JIDDAH, Saudi Arabia (AP) — Key Arab allies promised Thursday to "do their share" to fight Islamic State militants, but NATO member Turkey refused to join in, signaling the struggle the U.S. faces in trying to get front-line nations to put aside their regional animosities and work together to defeat a common enemy.

The Arab states' endorsement of a broad strategy to stop the flow of fighters and funding to the insurgents, and possibly to join military action, came as the CIA doubled its assessment of how many fighters the extremist group can muster.

Both Republicans and Democrats in Congress lined up Thursday behind President Barack Obama's call to combat the militants, a day after he laid out a long-term campaign that would include expanding airstrikes against the fighters in Iraq, launching strikes against them in Syria for the first time and bolstering the Iraqi military and moderate Syrian rebels to allow them to reclaim territory from the militants.

The 10 Mideast allies announced their backing for a strategy to "destroy" the group "wherever it is, including in both Iraq and Syria," following a meeting with U.S. Secretary of State John Kerry in the Red Sea coastal city of Jiddah.

Kerry's visit, on the anniversary of the Sept. 11 attacks, was aimed at pinning down how much support regional allies are willing to give to the U.S. plan to beat back the Islamic State group, which has seized large chunks of Iraq and Syria.
