

Experience. Integrity. The Latest Technology.

The Experts in LASER Vision Correction

The Eye Clinic of Racine has been leading the way in eyecare for more than 70 years. Our doctors offer the FDA approved LASIK advanced LASER procedure for nearsightedness, farsightedness and astigmatism, which can greatly reduce your dependence on glasses or contact lenses.

To find out if you're a candidate for the procedure, call our office for more information.

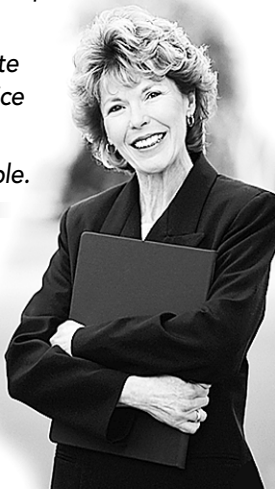

Flexible payment plans available.
