Washer Features

ENERGY STAR® MOST EFFICIENT 2015
 This LG washer has been awarded the ENERGY STAR Most Efficient Mark in 2015. Products that are recognized as the Most Efficient of ENERGY STAR in 2015 help reduce greenhouse gas emissions by meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency.

THE POWER OF TOUCH

What if you could customize your washer or dryer so it only has the cycles you want? LG's NFC Tag-On technology lets you download new cycles directly from your smartphone. Simply download the app, select your new cycle and touch, or "tag," your LG appliance to download your selection. What else can NFC Tag-On do? From one-touch cycle options that help you choose the right setting to instant solutions to your troubleshooting questions, LG puts smarter, simpler laundry in the palm of your hand.

ALL THE RIGHT MOVES

Get your clothes clean and experience a smarter way to wash with our innovative 6Motion™ technology. Each wash cycle combines up to 6 different wash motions to provide a revolutionary cleaning experience.
