

Proposed zip line across the Open Cut
Two brothers are trying to build a zip line across a massive open cut goldmine in Lead. The zip line would be 3,000 feet long and 1,200 feet off the ground at its highest point and drop 260 feet from start to finish.

1,200 feet high or about as high as the Empire State building

3,000 feet long or about 8.5 football fields
