

PROS TO KNOW:

Auto Accident Lawyers Fighting For South Carolinians

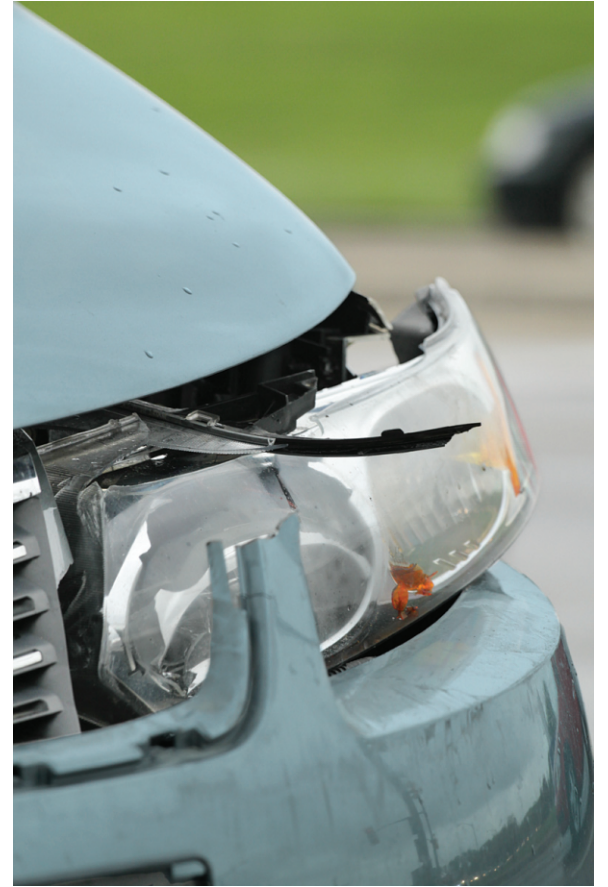

We believe you deserve protection from the common practice of low settlement offers from insurance companies. Our lawyers have experience as former legal representatives for the interests of insurance companies. We understand their tactics in South Carolina. We know how they try to convince accident victims to accept low payouts.

A carefully conducted independent investigation of your case, the accident scene and evidence from the scene may reveal defects or negligence the insurance company did not take into account. A thorough examination of your medical costs, your lost wages, potential emotional damages and other costs in the past, present and future may also show that you deserve more compensation than the insurance company is prepared to offer.

At Lanier & Burroughs, LLC, in Orangeburg, we take the time to fully understand the needs and objectives of our clients. Your recovery is important to us, and we will not cut corners to hurry your case along at the risk of missing key points of evidence or not accounting for costly losses. Contact our law firm today to schedule a free initial consultation with a South Carolina car accident lawyer who can help you navigate the legal process with precision and efficiency. Call us at 803-268-9800 or **e-mail us** for prompt response.

Auto Accident Lawyers Fighting For South Carolinians

We serve clients in the South Carolina Lowcountry and throughout the state that have car accident claims involving significant injury and/or property damage. Our compassionate attorneys have more than 50 years of combined experience representing individuals and families, and we are dedicated to full-service, informative representation throughout the legal process until we obtain the result you deserve.

We can fight for your case in a host of accident situations and circumstances caused by another party's negligence, including:

- Rear-end collisions causing neck and back injuries, whiplash and head injuries
- Drunk driving accidents
- Uninsured/underinsured motorist claims
- Hit-and-run accidents
- T-bone accidents causing bone fractures, head injuries and spinal cord injuries
- Burn and explosion injuries
- Accidents caused by defective/dangerous products or defective road conditions
- Wrongful death claims resulting from fatal car wrecks
