### Did you know?

Did you know that the anesthetic  
Novocaine is not used by dentists?  
**It's true!** The local anesthetic procaine  
was invented in 1905 and given the  
name Novocaine. It was widely used by  
dentists. In the 1940's and '50's, safer  
and more effective anesthetics were  
developed. Novocaine has not been  
used in dentistry since the late 1970's.  
**We've come a long way!** With excellent  
dental care from Dr. Strong, you will  
protect your teeth, look great, and feel  
even better. With dental implants, you  
can now keep your smile for a lifetime!  
We're here to help!

### New Patient Coupon Worth \$141!
