Did you know?

Did you know that with dental implants you can actually recover teeth that have been missing for years?

It's true! Dental implants replace the strong foundation of tooth roots, and the finished crown looks and acts like a natural tooth. Even better, it does not have to be removed, and is easy to keep clean with normal care.

We've come a long way! With excellent dental care from Dr. Strong, you will protect your teeth, look great, and feel even better. With dental implants, you can now keep your smile for a lifetime! We're here to help!
