#### Did you know?

Did you know that the first gold fillings were placed in the 1400's?

**It's true!** In Italy, gold leaf was used to fill cavities in the teeth of the ruling families. But later in the 1500's, French dentists were filling cavities with lead! We know now that this was not a good decision for the patients' overall health.

**We've come a long way!** With excellent dental care from Dr. Strong, you will protect your teeth, look great, and feel even better. With dental implants, you can now keep your smile for a lifetime! We're here to help!
