**Legend**

- Interstate highway work zones: Generally, there are no delays or detours. Travel may be narrowed to one lane (on pavement) each way and involve a reduced speed limit.
- Two-lane road paving projects: Motorists may be required to stop and wait to follow pilot cars. Usually, any delays are limited to 10 minutes or less and travel is on pavement.
- Two-lane reconstruction projects: At times, motorists may have to drive on gravel or another temporary surface, typically for two miles or less. Delays are limited, and there are no detours unless specifically noted.

Not every project is listed.

Due to the unpredictable nature of the construction process, not all projects are active all the time. In addition, some short-term projects and smaller projects which disrupt traffic to a lesser degree are not listed. Completion dates are approximate.

Commercial vehicle operators:

In work zones, size and weight restrictions may apply. Ask for details at any Wyoming port of entry or call (307) 777-4376. Current restrictions are also available on the Internet at [http://www.wyoroad.info/highway/restrictions.html](http://www.wyoroad.info/highway/restrictions.html).

Check the construction report online at: [www.wyoroad.info: Construction - Statewide](http://www.wyoroad.info)
