Okay, it is officially crazy.

I wanted to send this your way. Once I get settled, I will reach out for Board – sup training and strategic planning assistance. We already have the template. HT

So many exciting things happening. Please send me your resume and photo before you get swamped with Tucson.

Cathy:

This is extremely exciting. I am very interested. I would be more than happy to serve on any team assisting a district or campus. HT

Hi HT,
Here is the new work we are building. Would love to have you participate for the right opportunity.
C

The Center for Reform of School Systems (CRSS) has been working with school districts, large and small, across the country for over a

decade. CRSS has become a major resource for districts on school district improvement. In addition to a long history of training district governance teams to focus on how to improve student achievement, CRSS offers expertise and analytical skills for district-wide improvement. If you haven't visited our website we can be found at <http://crss.org>.

I am putting together teams to do this work on a contract basis. A normal engagement would involve up to 10 days of your time for the "remote analysis, on-site visit and write up" phases. Most of this work can be performed over weekends and evenings except for the 2-4 days of site visits. I envision this as supplemental work to your regular job. We will engage for more days if the district desires a plan and actual consulting assistance during the plan execution phase. At each step of the process you will be involved to the extent that your prior commitments allow.

Your expertise would be invaluable for this work. I would love to be able to count you in as a potential member of a team and list you in our marketing materials. Your engagement would depend on your availability for a particular assignment. Please let me know if you would be interested in joining our group of potential faculty. I think you would be perfect for this work and you would bring great value to school districts across the country and they work to improve.

I have attached a short white paper on this service so that you can see the full scope of the potential work. Please let me know of your interest, how you would like your experience listed in our marketing materials, a resume and photo along with the rates you charge for an 8 hour day of work. You can always call me at [REDACTED] or email me if you need more information. Could be great fun.

CRSS has built a wonderful reputation for supporting reform and improvement for over a decade. I hope you can join me in this additional focus on improving school districts for the benefit of children and tax payers.

My best,

Cathy
