

PUBLIC NOTICE

Resource Conservation and Recovery Act (RCRA) Permit Renewal
TND003493103, TNHW-168
Langdale Forest Products Co.
555 South Main Street, Sweetwater, Tennessee 37874

Langdale Forest Products Co., as required by the State of Tennessee, is announcing a public meeting to discuss the application to renew the existing Hazardous Waste Management Facility Permit for the Sweetwater facility, located in Monroe County at 555 South Main Street, Sweetwater, Tennessee 37874. The purpose of the public meeting is to inform the community of the hazardous waste management activities and solicit questions from the community.

Langdale provides post-closure maintenance and monitoring of the closed hazardous waste management unit and operates a groundwater pump and treat system to remediate groundwater.

Culpeper of Sweetwater, LLC owns and operates the facility and produces chemically preserved lumber and utility poles for residential and municipal use.

The pre-application meeting will be held on April 21, 2026, at 6:00 pm EST, at Sweetwater City Hall, 203 Monroe Street, Sweetwater, Tennessee 37874, telephone (423) 337-6979. For those needing special access to participate in the meeting, please contact the facility at least 72 hours before the beginning of the meeting. For more information, please contact Thomas Tripp at (229) 563-7011, tripp@langdaleforest.com or at 1202 Madison Highway, Valdosta, Georgia 31601.

NOTICE ISSUED: March 18, 2026
