

# PREMIER SPRAYERS

MODELS TA2400 • TA1600 • TA1200

## SPRAY MORE. FILL LESS.

The Top Air Premier lineup of pull-type sprayers features tank capacities up to 2,400 gallons and boom widths up to 132 feet. This equates to more acres sprayed per day with less time filling and increased productivity. Plus, by using existing horsepower on the farm, you won't

break the bank when it's time to spray! Customize your sprayer to fit your needs by adding a run-dry, high-pressure pump (std. on TA2400), auto-boom height control or steerable hitch. When you're ready to spray more and fill less, visit [TopAirEquip.com](http://TopAirEquip.com) or your nearest dealer today.
