

Heavy on pulling power.

Tailor a new T9 Series 4WD tractor with PLM Intelligence™ to your operation with SmartTrax™ II performance or a wide range of single, dual and triple tire options. With 36-inch-wide tracks, the innovative SmartTrax II design delivers the lightest footprint and the heaviest pull for maximum traction and flotation and an ultra-smooth ride. T9 tire choices include Low Side Wall singles for high flotation and narrow-width roading and dual and triple combinations for row-crop and high-flotation needs. Add best-in-class horsepower and Terralock™ traction management, and there's no terrain or application the articulated T9 can't handle.

Let's talk about which track or tire options are right for you and your new T9 with PLM Intelligence. Or visit newholland.com to learn more.

Where power meets precision.

That intersection is the new T9 Series tractor with PLM Intelligence™, our most advanced and powerful 4WD tractor ever. The T9—in models from 425 to 682 maximum hp—provides a new level of connectivity and remote viewing so you can better manage your farm, fleet and data—from anywhere. Organize your fields and applications. Track equipment. Share field and vehicle data. Do it all with best-in-class power and torque, a CVT transmission, luxury cab, and tire and SmartTrax™ II options to meet any terrain and application.

Power meets precision in the T9 with PLM Intelligence. Stop in today to learn more or visit newholland.com.

SEE MORE. DO MORE.

INTRODUCING THE NEW 300 SERIES SKID STEER LOADER WITH INDUSTRY-LEADING VISIBILITY.

Maximum productivity starts with a clear view. Experience 360-degree in-cab visibility with the new 300 Series skid steer loader from New Holland. A reverse camera and 8" multifunction LCD display provide safety and precision. Super Boom® lift technology allows you to lift more and reach higher. Redesigned controls and rock-solid stability make it easy to jump in and work with speed and confidence. Visit www.newholland.com to learn more.

PIVOT TO GREATER PRODUCTIVITY

If you need center-pivot productivity in a nimble, low-PTO-horsepower package, look no further than a new Discbine® 310 PLUS from New Holland. Requiring just 80 PTO hp, it features the same commercial-grade MowMax™ II PLUS modular cutterbar as its larger counterparts, which means you get the cleanest and closest cut yet. This six-disc cutterbar makes a 10' 1" (3 m)-wide cut that enables a compact 10' 4" (3.1 m) transport width. When combined with the center-pivot design, you'll maneuver through tight gates, crowded roadways, and fields with ease in your utility tractor. With standard features like the QuickMax™ knife-change system and choices including a 540- or 1,000-RPM PTO, a drawbar or two-point swivel hitch, chevron intermeshing rubber roll or LeaningEdge™ flail line conditioning system, you'll pivot to greater productivity in "mow" time.

Stop in today or visit newholland.com to learn how a new Discbine 310 PLUS is a cut above.
