

THIS HERBICIDE PRACTICALLY DRIVES ITSELF ...

STRAIGHT TO THE SOIL

The novel formulation of Enversa™ herbicide is groundbreaking, but the idea is simple: Drive the soybean herbicide to the soil as efficiently as possible with Corteva Agriscience's encapsulation technology, which results in a protective residual barrier against weeds in your fields. It's application, reimagined. **Learn more at Corteva.com/Efficiency.**

Enversa™ herbicide is the preferred residual tank-mix partner with Enlist One® herbicide.
