## Creating Solutions for Livestock Feeders and Farmers!

**SPREAD-ALL MODELS: TR16T, TR20T, TR22T, TK20T, TK22T**

### Benefits and Features:

- Twisted teeth act as hands, pulling and throwing the material instead of beating it (pull-type models only)
- Smaller particles give a finer spread
- Options available to maximize your distributor's potential
- Durability - Spread-All is built to last
- Up to 40' of spread - allowing for all kinds of manure and other uses
- Can be easily removed for stockpiling or to clean/service your spreader

#### Horizontal Distributor

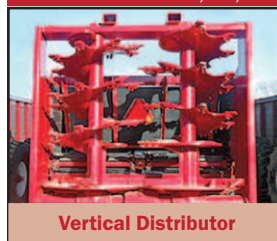

#### Super Duty (Berma) Distributor

#### TRUCK MOUNTED SPREADERS

Available in 20, 22, 26 & 34 Ton or Bigger Models.

Vertical Distributor

Horizontal Distributor

#### PULL-TYPE SPREADERS

Available in 16, 20, 22, 30, 32 or 34 Ton Models.

TR30T & TR32T

TR34T

### SHADE-ALL

#### Benefits and Features

- 30' x 30' shade device
- Eliminates sprinkler use
- Cheaper than putting up a new building
- Portable (place anywhere in pen to keep cattle from congregating by water tank or bunks)
- Place away from water tank to prevent crowding
- Durable
- Help keep cattle on feed and gaining
- Eliminates mud and mess caused by sprinklers
- Less property tax compared to a building
- Removable tarp in winter
- Covers approximately 65 head (1,000 lbs +)
- 4 in. heavy duty cargo strap helps keep stability and makes for easy assembly

### SCRAPE-ALL

#### Benefits and Features

- Standard in 10' and 12' models, other sizes upon special request
- Pintle hitch standard (Clevis optional)
- Adjustable hitch height
- 30" plus raised clearance
- 28 ply 16:0020 Tires
- 54" plus diameter high flotation tires
- HD Truck Type 10 bolt hubs and bearing (up out of the mud)
- Rear direct pull clevis hitch to hook chain
- Hydraulic hose and coupler mounting for storage and transport
- Hydraulic lines protected inside
- 1/2" thick main frame hitch
- 8,000 lb rear jack - storage (out of the way of duals)
- Durable reinforced end plates
- 4-way 1" x 10" x 50" reversible end plate
- 5/8" x 8" commercial quality heat-treated cutting edge
- 1 3/4" x 10" USA quality cylinders
- Rated for up to 350 HP
- 6" x 8" x 1/2" tongue double-braced
