

# AVERAGE WON'T CUT IT HERE. YOU NEED SEED THAT YIELDS.

Wheat grows under pressure in the Northwest Region. And so do wheat growers. That's why WestBred<sup>®</sup> Wheat delivers regionally proven varieties with the characteristics you need to meet your field's conditions — from very good yield potential in tough dryland environments to excellent standability. Top yield potential for wheat growers who prioritize top performance.

**We're 'Bred Differently. Just like you.**
