

Start the Season Off Right.

Make sure you are ready for the tough season ahead with AGCO Parts hay products!

CUT through thick grasses, wet hay, and other challenges with AGCO disc mower knives and our extra sharp and long-lasting blades.

BALE high quality product with tighter bales, stronger knots, and longer bale life with AGCO Parts twine and net wrap.

TEST the moisture of your hay bales or loose hay fast and accurately with an AGCO Parts moisture tester. Test from 13% to 70% moisture with the windrow hay moisture tester or 8% to 45% with the portable hay moisture tester with minimal error. Find out more at www.AGCOParts.com
