

“

*We've struggled for 10 years to try to do something with our land. .. But you know what? The bulldozers never came. And we always thought the bulldozers were coming and the bulldozers are going to pay off the debt. Well, the bulldozers never came, but the solar panels did. And the solar panels are going to pay off the debt.*

(Dairy farmer in his early 70s)
