

Heat Wave Due To Break On Friday

Dakota Youth Drowns At Bathing Beach Here

Francis Harris, Age 9, Is Third Season Victim

Rushes Into River While Mother Parks Auto At Abandoned Bath House Late Tuesday

Francis Harris, Jr., 9-year-old son of Mr. and Mrs. Francis Harris, Sr., Dakota, Minn., drowned in the Mississippi river off the north end of the abandoned municipal bath house shortly before 8 p. m., Tuesday evening.

The little boy, garbed in a new swimming suit which he had proudly displayed to neighbors at home Tuesday, raced to the water while his mother was parking the car by the bath house and was never seen again.

Heard No Cry

His mother, accompanied by a 10-year-old sister, stood on the beach awaiting his return. He never showed an outcry, she told police.

Police dragged the waters adjacent to the bathing beach for nearly two hours last night, and resumed the dragging this morning.

Three men, aiding police in the search for the body, found it at 10:20 this morning. The men were Russell Hanson, residing at the foot of Division street, Roy New, 900 South Third street, and a Mr. Gosholt, 435 South Third street. The body was located on six feet of water a short distance south of where the boy was supposed to have gone under.

Third Drowning Death

Heat Leaves Him Cold

At a time when flushed, perspiring men are looking enviously at gossamer-clad womenfolk, and glaring menacingly at acquaintances who explain that it's not the heat, but the humidity, this little man finds that all's right with the world. The mercury can keep on going up, but it doesn't get him down. He just greets the torrid season with a splash, bathing those pudgy feet in the waters of a swimming pool, lacking a good old mud puddle.

Labor Takes Up Plan Of Action In Steel Strife

Green And Lewis Lead Rival Camps; Strike At Portsmouth Flares Up Again

Washington—(AP)—William Green, president of the American Federation of Labor, submitted to President Roosevelt Wednesday a survey showing that at least 4,576,501 workers have been affected by breakdowns in labor standards since the invalidation of the national recovery act.

Washington—(AP)—Leaders of the American Federation of Labor gathered Wednesday to decide whether to wage war to the knife on John L. Lewis and fellow insurgents engaged in the gigantic struggle to organize 500,000 steel workers into a single industrial union.

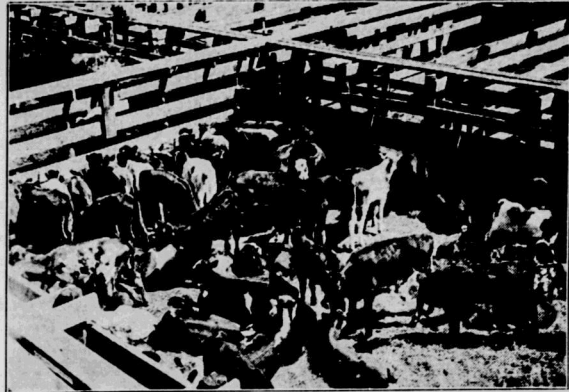

Angry accusations from the opposing camps of industrial and craft unionists indicated no peace was in sight in the quarrel threatening to split the A. F. of L. wide apart with profound consequences for the future history of organized labor.

William Green, president of the A. F. of L. and spokesman for its dominant faction of craft unionists, said bitterly that Lewis' "unwise policy" had produced only "division, discord and confusion" in labor ranks and would benefit "only the enemies of organized labor."

Lewis Flares Back

Lewis, United Mine Workers head and leader of the drive to organize steel workers into a single unit, said

Drought Jumps Cattle Sales

With temperatures continuing to rise to unprecedented heights and the feed surplus rapidly diminishing farmers in the drought stricken areas of western Minnesota and North Dakota have started shipping their cattle to markets to be sold to the government and the meat distributed to relief agencies. Here is a herd of cattle in the pens of the South St. Paul market. (Associated Press Photo.)

Mercury Gets Up To 102 In Another Spurt

Record 72 Deaths Over Nation; Grain Prices Hold At High Level In Wild Sessions

TEMPERATURES

6 a. m.	... 76	12 a. m.	... 93
7 a. m.	... 80	12 m.	... 93
8 a. m.	... 84	1 p. m.	... 100
9 a. m.	... 88	2 p. m.	... 101
10 a. m.	... 94	2:30 p. m.	... 102

Relief—cooler temperatures and rain—from present heat wave by Friday or Saturday was forecast Wednesday by Meteorologist A. D. Sanial as the mercury went over 100 degrees for the second day in succession.

Western Minnesota, Sanial said, will have cooler weather by Thursday night, the torrid temperature area gradually moving eastward, being over the Great Lakes Wednesday morning.

Cooler temperatures will be a relief to residents of La Crosse and the upper Mississippi Valley, who have been sweltering under temperatures of 100 degrees or higher since Sunday.

At 11 o'clock Wednesday morning the temperature was 98 degrees, identical with the reading at the same hour Tuesday. The day's high temperature, Sanial said, would be about 102 or 104 degrees.

Possibility of Rain

"With cooler weather Friday or Saturday, there is a possibility of rain," he said. "The rain area is more extensive Wednesday than it was Tuesday."

"Rains are falling in the Canadian Northwest, as well as in the Rocky Mountain region of Idaho and Montana. Showers also were reported in Washington, Oregon, Arizona, New Mexico, Texas and the Gulf region."
