

Acres of Recent and Projected Conversion of U.S. Agricultural Land

Millions of acres converted

Acres of recent and projected conversion of agricultural land to urban and highly developed (UHD) and low-density residential (LDR) land uses for the contiguous U.S. Recent conversion from 2001 to 2016 includes conversion to both UHD and LDR as documented in *Farms Under Threat: The State of the States*. Projected conversion is for 2016-2040.
