MEDICAL BIO

John Smith, M.D. | Internal Medicine

Dr. John Smith is founder and president of Dr. Smith's Internal Medicine Group, an Ahwatukee clinic that offers an innovative approach to living well. Dr. Smith and his team of physicians discover the cause of each patient's symptoms with a goal of protecting his or her long-term health and quality of life. The primary focus of his practice is to diagnose hidden causes of thyroid disease and assisting those already diagnosed to resolve hypothyroid symptoms, including weight gain, fatigue and hair loss. A diplomat of the American Board of Internal Medicine, Dr. Smith has practiced internal medicine for 15 years in Washington before opening his practice in the Ahwatukee community. He lectures nationally and internationally and has authored several books yet still finds time to volunteer his services to third world countries on a monthly basis.
