Dear Sir/or Madam,

Details of my Ethics Complaint concerning the Executive Director of the Pinelands Commission are hereby submitted for your investigation.

The complaint documents three separate incidents involving Ms. Wittenberg which merit your attention. In each case I try to show why the complainant has lost the confidence of the public paying attention to these matters.

These episodes undermine public confidence in the Pinelands Commission and the respect the staff within the agency has for Ms. Wittenberg's leadership, because they indicate serious breaches of integrity and ethical standards.

It is my sincere hope that the Ethics Commission will take these concerns seriously, conduct a thorough investigation and report your results to the public.

Thank you for your efforts in thoroughly investigating and ruling on these serious charges.
