

HOA of Auburn Celebrates Over 188,000 Patient Visits in Cayuga County Since 2012

For almost 10 years, the Auburn Practice site of Hematology Oncology Associates has proudly provided cancer patients across Cayuga County with the highest level of quality care available. HOA's three sites are the only practices in Central New York certified for quality by the American Society of Clinical Oncology, and the only medical institution to achieve Oncology Medical Home designation in New York State. All HOA patients receive specialized care from experienced oncology physicians and Advanced Oncology Certified Nurse Practitioners. All HOA locations feature onsite, full-service laboratories, pharmacies and state-of-the-art infusion rooms, as well as social workers, nutritional counseling and clinical research.
