Seniors snap up new medical alert device that comes with no monthly bills

People don't always do what their doctor says, but when seasoned veteran emergency room physician, Dr. Philip B. Howren says every senior should have a medical alert device, you better listen up. "Seniors are just one fall away from being put in a nursing home," Dr. Howren said. "With a medical alert device, seniors are never alone. So it keeps them living independently in their own home. That's why seniors and their family members are snapping up a sleek new medical alert device that comes

with no monthly bills ever," he said. Many seniors refuse to wear old style help buttons because they make them look old. But even worse, those medical alert systems come with

monthly bills. To solve these problems Universal Physicians, a U.S. company, went to work to develop a new, modern, state-of-the-art medical alert device. It's called "FastHelp™" and it instantly connects you to free unlimited nationwide help everywhere cell service is available with no contracts, no deposits and no monthly bills ever. "This slick new little device is designed to look like the pagers doctors wear every day. Seniors love them, because it actually makes them look important, not old," Dr. Howren said. FastHelp is expected to hit store shelves later this year. But special newspaper promotional giveaways are slated for seniors in select areas. ■

Unsolicited consumer feedback from satisfied customers as reported to Universal Physicians. Universal Physicians rated these customer reviews 5 stars

No contracts, no deposits and no monthly bills ever

FastHelp is the only Medical Alert device that won't break the bank. That's because it comes with no contracts, no deposits and no monthly bills ever - which makes FastHelp a great choice for seniors, students and professionals because it connects to one of the largest nationwide networks everywhere cell service is available for free. And here's the best part. All those who already have an old style monitored medical alert button can immediately eliminate those monthly bills, which is why Universal Physicians is widely advertising this announcement nationwide. So if you've ever felt a medical alert device was too complicated or expensive, you'll want to get FastHelp, the

sleek new medical alert device with no monthly bills. The medical alert device slugfest was dominated by two main combatants who both offer old style monitored help buttons that come with a hefty bill every month. But now Universal Physicians, the U.S. based heavyweight, just delivered a knockout blow sending the top rated contenders to the mat with the unveiling of FastHelp. It's the sleek new cellular embedded medical alert device that cuts out the middleman by instantly connecting you directly to highly trained 911 operators all across the U.S. There's absolutely nothing to hook up or install. You don't need a land line and you don't need a cell phone. Everything is done for you. ■

The only device that makes you look important, not old

The problem with medical alert devices is, nobody wants to wear them because it makes them look old. Well, that's not the case with FastHelp. That's because it's the first state of the art medical alert device designed to make you look important, not old. Old style monitored help buttons you wear around your neck, or require expensive base station equipment or a land-line are the equivalent of a horse and buggy, it's just outdated. Millions of seniors fall every year and spend hours lying on the floor helpless and all alone with no help. But seniors who fall and get immediate help are much more likely to avoid getting sent to a nursing home and get to STAY

living in their own home independently. Yet millions of seniors are still risking their safety by not having a medical alert device. That's because seniors just can't afford to pay the monthly bills that come with old style medical alert devices. That's why seniors born before 1964 are rushing to cash in the whopping \$150 instant rebate before the 2 day deadline ends. So there's no need to wait for FastHelp to hit store shelves later this year because seniors born before 1964 can get it now just by using the \$150 instant rebate coupon printed in today's newspaper before the 2-day deadline ends. If lines are busy keep trying, all calls will be answered. ■
