

COMMON PEDIATRIC ORTHOPEDIC DIAGNOSES

An Informative Talk with Dr. Heather Hansen

Wednesday, October 9th, 6:30-7:30pm

Mansfield Education Center- Burns East Room

1145 North 30th, Located in the Lower Level
of the Yellowstone Medical Building West

Join Dr. Heather Hansen for an informative session about common pediatric orthopedic diagnoses, questions that parents and caregivers may have about these conditions and general information that every family should have during their child's growing years.

Dr. Hansen specializes in the operative and non-operative treatment of pediatric musculoskeletal problems including fractures, dislocations, scoliosis, hip dysplasia, club foot, cerebral palsy and more. Dr. Hansen completed medical school and a residency in Orthopedic Surgery at the University of Saskatchewan College of Medicine. She completed a fellowship in Pediatric Orthopedic Surgery at Brown University in Providence, Rhode Island.
