

Alzheimer's Disease and Dementia ARE YOU AT RISK?

According to a new study by Johns Hopkins University School of Medicine and the National Institute on Aging, men and women with hearing loss are much more likely to develop dementia and Alzheimer's disease. People with severe hearing loss, the study reports, were 5 times more likely to develop dementia than those with normal hearing.

IS IT TIME FOR A HEARING TEST?

TAKE THIS QUIZ TO FIND OUT...

- ☐ Y ☐ N Do you feel that people mumble or do not speak clearly?
- ☐ Y ☐ N Do you turn the TV up louder than others need to?
- ☐ Y ☐ N Do family or friends get frustrated when you ask them to repeat themselves?

- ☐ Y ☐ N Do you have trouble understanding the voices of women or small children when they are speaking?
- ☐ Y ☐ N Is it hard to follow the conversation in noisy places like parties, crowded restaurants or family get-togethers?

If you've answered "Yes" to any one of these questions, there's good news! Miracle-Ear can help! Don't wait another moment. Call us today.

Have you noticed a change in your ability to remember?

"The more hearing loss you have, the greater the likelihood of developing dementia or Alzheimer's disease. Hearing aids could delay or prevent dementia by improving the patient's hearing."

-2011 Study by Johns Hopkins University School of Medicine and the National Institute of Aging

"Hearing loss, left untreated can lead to serious problems such as loneliness and isolation."

Free Public Service!

Limited Time Only! All of the tests are FREE!

Free **Your hearing will be electronically tested*** and you will be shown how your hearing compares to normal hearing.

Free **Your ears will be examined with a video otoscope*** to determine if your hearing problem may just be excess wax.

Hearing tests are always free. Hearing test is an audiometric test to determine proper amplification needs only. Hearing Aids do not restore natural hearing. Individual experiences will vary depending on severity of loss, accuracy of evaluation by our Consultant, proper fit, and the ability to adjust to amplification. Pursuant to terms of your purchase agreement, the aids must be returned within 30 days of completion of fitting in satisfactory condition for a full refund.
