

More people seek trade education than a decade ago, but they remain a sliver of Montana graduates

In the last decade, the number of people graduating from Montana colleges with trade degrees has grown 64.5%, from 296 graduates in 2007-08 to 487 in 2017-18. The bulk of that growth has been among associate degree programs: 78 people earned certificates in 2007-08 and 218 people did so in 2017-18, an increase of almost 180%.

Number of people who earned degrees from Montana University System, 2017-18
