---

PLEASE NOTE: All biological specimens or other items that were submitted to the Toxicology Section in this case will be retained at this Laboratory for a period of one year at which time they will be destroyed; unless or until we receive a letter from your office stating what other action you may require. All concentrations are expressed as the expanded uncertainty at a coverage probability of 95.45% using a coverage factor of  $k=2$ . Caffeine, Nicotine, Cotinine, and Lidocaine are not reported by the laboratory unless specified by the Toxicology Supervisor. The Toxicology Section will provide the measurement uncertainty for all other drugs upon request. For further inquiry, please contact the Toxicology Section at DOJTOX@mt.gov.

CERTIFICATION: The undersigned, as Custodian of Records for the Department of Justice, Forensic Science Division, hereby certifies that this document, when signed, dated and embossed is a true and correct copy of the original of said document on file in the offices of the Forensic Science Division.
