In case you were wondering.....jeff essman is the state senator who chairs the senate taxation committee. I wish I could tell you this will be an easy fix....but it isn't easy and I am not sure it can be fixed w/o rewriting tons of software the state just implemented last couple of years. We'll see....--dennis

Jeff: A situation has arisen that is causing some stir here and I was wondering if you had some suggestions (we may need a legislative fix). We recently conducted an arrest and we found the names and addresses of some of our undercover agents in the possession of one of our druggers.....that is spooky enough....but the information was apparently downloaded from the state's public records. Now the families of these officers feel personally threatened. Is there anyway you can think that we can get law enforcement officer's home addresses removed or at least not published? Here is the rest of the story. Even if we could get the address off the first menu, the DOR web-site has EVEN MORE DETAILED INFORMATION. Again, putting the property into one name (you might run through the Ostby family for instance) might work, but changes the legal rights of the parties. English can further explain and illustrate if you want to come down and visit with him.

Dennis,

I am in a good position to help and have a bill title available. Can you explain to me your theory of how these names were obtained and how they were used to identify your agents as agents. Or is it just the home addresses that you are worried about?

***RE: Pauline Lewis and Holiday Party***

***I'm sure I speak for all of us in wishing Pauline Lewis a speedy recovery, and I'll continue to forward your cards to her.***

***In the meantime, Management has decided to cancel our Holiday Party and instead, give everyone the afternoon of the 23rd December off with full pay.***

---

Make your life easier with all your friends, email, and favorite sites in one place. Try it now.

**RE: Holiday Party**

**What a diverse group we are! I had no idea that December 20th begins the Muslim holy month of Ramadan, which forbids eating and drinking during daylight hours. There goes the party! Seriously, we can appreciate how a luncheon at this time of year does not accommodate our Muslim employees' beliefs, perhaps the Grill House can hold off on serving your meal until the end of the party - or else package everything up for you to take home in a little foil doggy bag. Will that work?**

**Meanwhile, I've arranged for members of Weight Watchers to sit farthest from the dessert buffet and pregnant women will get the table closest to the toilets, Gays are allowed to sit with each other, Lesbians do not have to sit with gay men, each will have their own table.**

**Yes, there will be flower arrangements for the gay men's table, too.**

**To the person asking permission to cross dress - no cross dressing allowed. And No, no blow-up sheep.**

**We will have booster seats for short people. Low fat food will be available for those on a diet. We cannot control the salt used in the food. We suggest those people with high blood pressure taste the food first. There will be fresh fruits as dessert for Diabetics, the restaurant cannot supply "No Sugar" desserts. Sorry!**

**Did I miss anything?!?!?!?!?!?**

RE: The F*ckin' Holiday Party.

Vegetarian pricks I've had it with you people!!! We're going to keep this party at the Grill House whether you like it or not, so you can sit quietly at the table furthest from the "grill of death", as you so quaintly put it. You'll get your f*ckin' salad bar, including organic tomatoes, but you know tomatoes have feeling, too. They scream when you slice them. I've heard them scream. I'm hearing them scream right NOW!!

Hope you all have a rotten holiday * drink, drive, and die!

We recognize that Chanukah is an important holiday, which often coincides with Christmas, though unfortunately not this year. However, from now on we're calling it our 'Holiday Party.' The same policy applies to any other employees who are not Christians. There will be no Christmas tree or Christmas carols sung. We will have other types of music for your enjoyment.**

Regarding the note I received from a member of Alcoholics Anonymous requesting a non-drinking table...you didn't sign your name. I'm happy to accommodate this request, but if I put a sign on a table that reads, "AA Only," you wouldn't be anonymous anymore!!!! How am I supposed to handle this? Somebody?

Forget about the gift exchange, no gift exchange allowed now since the Union Officials feel that \$10.00 is too much money and Management believe \$10.00 is a little cheap.

NO GIFT EXCHANGE WILL BE ALLOWED.

Tomorrow (Wednesday) in room 105 is our Christmas party. If you have not done so, get with [REDACTED] about what items are needed to make our luncheon complete.

We do NOT have access to the oven until 11:30 (don't ask it's a long and stupid story) so plan accordingly.

Also, the white elephant gift exchange is still going to take place so make sure you have that extra "special" something ready.

Unfortunately this year I could counter each point with strikingly similar tragedies happening to my family members, but I don't want to make this into some bizarre competition (there are no winners or joys of victory in that game---except that misery does like company and you are very special company) ..... You and I have one more thing in common..... these sad things are happening (or have happened) not to us personally... but to our loved ones.... and it's the knowledge that there is very little we can do except to try to comfort and love those who are suffering ..... I will wish you and your family all the blessings of this season and may they receive some peace in their lives in the coming year

**A herd of buffalo can only move as fast as the slowest buffalo. And when the heard is hunted, it is the slowest and weakest ones at the back that are killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells. Now, as we know, excessive intake of alcohol kills brain cells. But naturally, it attacks the slowest and weakest brain cells first. In this way, regular consumption of beer eliminates the weaker brain cells, making the brain a faster and more efficient machine. And that is why you always feel smarter after a few beers.'**

### THE GEOGRAPHY OF A WOMAN

Between 18 and 22, a woman is like Africa, half discovered, half wild, fertile and naturally beautiful!

Between 23 and 30, a woman is like Europe, well developed and open to trade, especially for someone with cash.

Between 31 and 35, a woman is like Spain, very hot, relaxed and convinced of her own beauty.

Between 36 and 40, a woman is like Greece, gently aging but still a warm and desirable place to visit.

Between 41 and 50, a woman is like Great Britain, with a glorious and all conquering past.

Between 51 and 60, a woman is like Israel, has been through war and doesn't make the same mistakes twice, takes care of business.

Between 61 and 70, a woman is like Canada, self-preserving, but open to meeting new people.

After 70, she becomes Tibet, wildly beautiful, with a mysterious past and the wisdom of the ages...only those with an adventurous spirit and a thirst for spiritual knowledge visit there.

### THE GEOGRAPHY OF A MAN

Between 1 and 70, a man is like Iran, ruled by Nuts

killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells. Now, as we know, excessive intake of alcohol kills brain cells. **A herd of buffalo can only move as fast as the slowest buffalo. And when the herd is hunted, it is the slowest and weakest ones at the back that are killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells. Now, as we know, excessive intake of alcohol kills brain cells. But naturally, it attacks the slowest and weakest brain cells first. In this way, regular consumption of beer eliminates the weaker brain cells, making the brain a faster and more efficient machine. And that is why you always feel smarter after a few beers.'**

No we don't shut down the office early for new year's eve....that sends the wrong message.....however, I assume j.ct will go early again and if so, afterwards if people wish to take a few hours vacation a leave that will be ok....PROVIDED Ashley stays, the phones get answered and there are a few attys around to handle whatever walks in the door.

And so where were you last night and with whom?
