

THANK YOU GOVERNOR HOCHUL

AND THE NEW YORK STATE LEGISLATURE

FOR PASSING AND SIGNING
**ASSEMBLYMEMBER ALEX BORES &
SENATOR ANDREW GOUNARDES' RAISE ACT**

The RAISE Act will require major AI companies in New York to publish safety plans and report serious incidents. It's a key step to keep families safe as AI advances. By acting now, leaders are ensuring AI innovation works for people—protecting communities, increasing accountability, and serving the public good.

Paid for by Foundation for Secure AI, a sister organization of Secure AI Project
