

SEMCO ENERGY ASKS CUSTOMERS TO KEEP METERS CLEAR OF SNOW AND ICE

During the winter, here are a few ways to help protect gas meter equipment and gas appliances to avoid a potentially hazardous situation or service disruption:

- **Clean and repair leaky seams in your gutters and downspouts to prevent melting snow and ice from building up on the gas meter or pressure regulator.**
- **Never allow snow to cover your natural gas meter or its pressure regulator or block your appliance exhaust vents.**
- **Please use caution when shoveling snow, plowing or snow blowing to avoid piling snow against the natural gas meter, regulator or appliance vents.**
- **Clear a path to the meter free from snow and ice for easy access.**
- **Remove soft snow build-up gently, using only a broom or your hand rather than a shovel that could damage the meter.**
- **Do not try to remove ice or frozen snow from the natural gas meter pressure regulator or piping. If you find your meter or pressure regulator covered in ice or frozen snow, do not attempt to remove the ice or use de-icer. Contact SEMCO ENERGY Gas Company, toll free, at 1 800 624 2019.**
