

Learning Students Love

The Liggett Approach

From early school through grade 12, our students learn by doing, with an emphasis on meaning over memorization. Our rigorous curriculum and innovative Signature Programs challenge students to think critically and prepare them to thrive in college — and beyond.

With a four-year College Guidance Program and a counselor-to-student ratio of just 1:35, every student receives unmatched, personalized support in finding their best-fit college.

More than a school, ULS is a community.

Experience it in person —
join us for an Info Session & Showcase on Tuesday, October 21.
