Medication Assisted Treatment for opioid addiction starts here.

Medication Assisted Treatment (MAT) is the use of FDA-approved medications for the treatment of addiction to Fentanyl, heroin, opioid painkiller and other prescription pills. When coupled with counseling, MAT treats the whole patient and significantly reduces the rate of relapse. Medi-Cal, Medicare and many private insurance plans cover MAT. You can get MAT through a primary care doctor, licensed narcotic treatment programs, outpatient treatment programs, or licensed residential treatment facilities.

During the Coronavirus pandemic, MAT is also available through virtual care options.

Find a proven treatment option that's right for you at **ChooseMAT.org**.
