

Do you strain to hear each day, even with hearing aids?

Hearing implants are different than hearing aids.

Hearing aids help many people by making the sounds they hear louder. Unfortunately as hearing loss progresses, sounds need not only to be made louder, but clearer. Cochlear implants may give you that clarity and they are covered by Medicare.*

While wearing hearing aid(s), do you...

Have difficulty hearing conversations, especially in noisy situations?

Have trouble hearing on the telephone?

If you answered “yes” to any of these questions,
a hearing implant may be right for you.

Call 833-432-7338 or visit www.Cochlear.us/DET to find
a Hearing Implant Specialist and request a **FREE** guide.

Please seek advice from your health professional about treatments for hearing loss. Outcomes may vary, and your health professional will advise you about the factors which could affect your outcome. Always read the instructions for use. Not all products are available in all countries. Please contact your local Cochlear representative for product information.

* Covered by Medicare beneficiaries who meet CMS criteria for coverage. Contact your insurance provider or hearing implant specialist to determine your eligibility for coverage.
