Celebrating A Decade Of Innovation.

ALL FOR YOU.

Ten years ago, we celebrated the grand opening of our West Bloomfield Hospital. And in the years that followed, we've celebrated other milestones as well: Medical breakthroughs, innovative new technologies and a healing environment for our patients, from brain surgery, orthopedics and cancer care to our birthing and wellness centers. Treating the whole patient – body and mind – we offer a revolutionary experience. A kind of care that's all for you.
