

North Sagamore Water District Hydrant Flushing

The North Sagamore Water District will be flushing hydrants as part of our routine system maintenance beginning October 16, 2018 and continue through the fall. The District will be flushing on Tuesdays, Wednesdays and Thursdays from 8:30am to 3:30pm. Customers may experience low water pressure and discolored water during this time period. Personnel will begin flushing in the areas of State Road and Old Plymouth Road (*north of Clark Road*). The District will then move to Weldon Park, Herring Pond Road and Scenic Highway and continue east to the areas of Old Plymouth Road (*south of Clark Road*) and Williston Road.

You may check our website www.northsagamorewaterdistrict.com for weekly updates on the areas of the District that will be impacted by the flushing. Customers should refrain from doing laundry and running their dishwasher when we are working in your area. Please contact our office at (508) 888-1085 if you have any questions.
