Superintendent's Message to the Community

Dear MMSD Families, Staff, and Community Members,

Preparing this message for our entire school community has prompted reflection on how much of a privilege it has been to serve as Superintendent of the Madison Metropolitan School District (MMSD). The incredible support our community provides our schools exemplifies Madison's love of our school district and public education. As a result, we are honored to provide experiences which assist our scholars in graduating career, college, and community ready.

Budgets reflect an organization's priorities and values. The 2023-24 Budget Book reflects the heart of MMSD, while representing our commitment to accelerate learning, disrupt disparities, and provide scholars an inclusive learning environment where all students and staff thrive. Hence, MMSD continues to be a state-wide leader in high school completion rate, post-secondary enrollment, staff retention, and community engagement.

We have much to celebrate relative to ensuring all students succeed, particularly scholars from historically excluded groups. Our budget makes investments in critical areas which demonstrate our commitment to equity and excellence: low class sizes, dual-language immersion; college access programming; and the continuation of priority programs like full-day 4K and early literacy. Our work to accomplish these efforts has been conducted with an equity lens, transparency, and fiscal responsibility. We also understand the importance of having world-class educators in order to achieve great outcomes for students. Therefore, this budget includes resources for staff recruitment and retention as well as building the capacity of our existing staff.

One-time federal funding related to COVID-19 has provided us with the opportunity to make strategic and creative investments. However, these funds have limitations on how they can be spent, which brings unaddressed fiscal challenges related to public school funding. This forces school districts to make difficult choices about how to prioritize programs and initiatives, including those involving social-emotional and mental health supports. The unfortunate reality is we cannot fund every request or priority. However, this year's Budget Book represents our sincere efforts to support students, staff, and families while remaining fiscally responsible as we pursue our Strategic Framework goals.

As we embark on this year's budget, we are not making funding decisions in a vacuum. Rather, we remain committed to a transparent budgetary process which invests in ALL of our students. Therefore, we encourage all students, families, staff, and community partners to be active participants in this process. Your support drives our collaborative work in providing resources to accelerate learning, facilitate innovation, promote dynamic learning experiences, and address the social-emotional needs of every scholar.

Sincerely,
Carlton D. Jenkins, Ph.D., Superintendent

MMSD Enrollment

Student Enrollment - Two Enrollment Counts

Student enrollment is a critical budget variable which affects both revenues and expenditures. MMSD calculates two distinct enrollment counts. First, MMSD’s revenue authority is based on a ‘resident enrollment’ count, wherein the impacts of open enrollment and voucher students are eliminated. Second, MMSD’s staffing plan and total expenditures are based on an ‘actual students-in-seats’ enrollment count, which is impacted by open enrollment and 2x charters.

1. The Revenue Limit Enrollment Count

Last year (2022-23), the resident enrollment count (used for calculating revenue) was 26,134. ‘Open Enrollment In’ is not included in this count. However, this count includes resident ‘Open Enrollment Out,’ 2x charter membership, part-time students, and prorated membership for summer school students and 4K students to arrive at an adjusted 3rd Friday Resident Membership. Our 2023-24 figure for resident enrollment is estimated at 25,763. With these numbers in place, our three year rolling average will be 26,123 for our 2023-24 revenue limit calculation.

2. The ‘Students-in-Seats’ Actual Count for Staffing and Expenditures:

The ‘students-in-seats’ or headcount for 2022-23 was 25,226. This includes headcount at all MMSD sites, including our offsite 4K providers. Based on our projections from the Applied Populations Lab at UW, we are anticipating a reduction of students in excess of 560 students (566).

The COVID-19 pandemic and its effects on enrollment continue to impact and complicate enrollment projections in MMSD. If the current trends continue, overall enrollment in MMSD will continue to decline following several years of low birth rates in Dane County.

For revenue purposes, we must use the formula in the state revenue limit to dictate our starting revenue authority for each year. The graph below indicates enrollment trending in MMSD as adjusted for the revenue limit calculation

Strategic Framework Overview

Our Strategic Framework integrates strategies that build on what we've learned, draws on our community's experience and expertise, and aims to bring our shared vision to life.

OUR STRATEGY INCLUDES:

Core values that represent our commitment to anti-racism, inclusion and alliance to all children and their families.

- Belonging
- Excellence
- Racial Equity and Social Justice
- Voice
- Focus
- Creativity

A CONTINUED SET OF AMBITIOUS GOALS

- Every child is on track to graduate ready for college, career and community.
- The district and every school in it is a place where children, staff and families thrive.
- African-American children and youth excel in school.

Black Excellence

We believe in the brilliance, creativity, capability and bright futures of Black youth in Madison. We must rally together as a community to disrupt the barriers that stand in our students' way and create space for healthy identity development, strategies to support academic excellence, and new narratives about Black youth in Madison.

5 MAJOR LEVERS FOR CHANGE

EMPOWER SCHOOL COMMUNITIES

We will empower principals along with school teams, providing them the resources, flexibility and integrated support necessary to collaboratively create strategies with students, staff and families that accelerate student progress.

INVEST IN PEOPLE

We will commit to investing in and fully supporting our staff, with a focus on anti-racist, culturally responsive and inclusive teaching and powerfully aligned hiring, placement, induction, professional growth, coaching and evaluation practices.

STREAMLINE PRIORITIES

We will focus the work of the central office team on breaking down systemic barriers and filling gaps in access, services and resources.

PLAN FOR THE FUTURE

We will think and plan long-term in partnership and collaboration with our students, families, staff and the larger Madison community.

EMBRACE INNOVATION

To address challenges without clear solutions, we will adopt new mindsets toward risk-taking and support people in bold, new and innovative work within the classroom and beyond.

Financial Summary Tables

High-Level Budget Summary Tables:

Two budget tables are presented in the pages that follow. These tables provide a high-level overview of the 2023-24 Preliminary Budget, and are intended to serve as an introduction to the budget discussion which follows. The first table, 2023-24 All Funds Summary, captures all budget activity for MMSD, with the exception of the Referendum Construction Fund (reported elsewhere to maintain comparability). This table is designed to report on the 'total budget picture' for MMSD.

The second table, 2023-24 Operating Funds Summary, sharpens the focus to just the operating funds (defined as General Fund + Special Education Fund, less interfund transfers). This fund captures the basic operations of the district. It excludes the Debt Service, Capital Maintenance, Food Service, and Community Service funds. This table is designed to report on the 'core operations' of MMSD. It should be noted that in our current environment of one-time funding in K-12 education, comparability will be explained in more detail in the Financial Reports section of this book.

Budget Narrative

Introducing the 2023-24 Preliminary Budget:

We are pleased to present the 2023-24 Preliminary Budget for the Madison Metropolitan School District. Development of the proposal has been guided by regular monthly updates to the Board and Administration, along with input from Madison community. The 2023-24 Preliminary Budget is a public document available on the MMSD website at: mmsd.org/budget

MMSD's budget development process for budget approval includes a Proposed Budget presentation in April, and Preliminary Budget Approval at the Board of Education June Regular meeting. The Board is scheduled to adopt the Fall Budget at the October regular meeting. The 2023-24 fiscal year begins July 1, 2023.

The revenue forecast for 2023-24 is driven by the following major funding sources and factors in the 2023-25 state biennium budget: (1) state 'per pupil' categorical aid to school districts will have no increase; (2) a \$0 per student revenue limit increase in revenue limit authority; and (3) new 2020 operating referendum authority of \$10 million assumed to be fully utilized. In addition to these factors, declining enrollment factors are creating significant downward pressure on operational revenue sources. The 2023-25 state biennium budget has not been finalized at the time of writing this narrative.

The Preliminary Budget does include significant portions of the federal ESSER III awards granted to school districts for COVID-19 mitigation, social-emotional health, and learning loss identified over the last two years due to the pandemic. This budget proposal includes \$42.3 million in ESSER III planning. These federal awards are one-time funding, and must be used by September 2024 at the latest.

The budget development process follows a sequence which:

- Establishes budget goals and guiding principles
- Creates a revenue forecast based on the latest information and projected enrollment
- Designs a staffing plan in line with enrollment and class size policy
- Develops a compensation strategy, including salaries/wages and employee benefits
- Funds District Excellence & Equity Projects
- Provides for expected budgetary increases

Our planning for the 2023-24 school year marks a multi-year shift in resource management. In the state of Wisconsin, school districts must develop a budgetary plan based on factors dictated by the state biennium budget. In the current state budget, investment in K-12 education has been focused on more one-time allocations of resources than ongoing stable funding. This makes it very difficult to plan for inflation and ongoing expenses related to operations. As we move into a new biennium for 2023-25, we are again faced with mounting uncertainty of what to expect for the 2023-24 school year and beyond.

Despite this, we are using the resources we have been given to plan for staffing and resources which align to the needs of our students. We know the impact of COVID-19 has created undue hardship and impacted our community greatly. We will strive to meet the requirements of the federal dollars we have been given to address grant requirements, and continue to address the mental health and learning needs

of our students. All of our efforts will continue to support our accelerated learning vision as described in the sections which follow.

These efforts include many priorities established during the development of prior budgets, including:

- Critical investments in early literacy, including:
 - New K-5 reading curriculum materials.
 - Deliberate shift in the way we teach reading following the science of reading, including significant investments in teacher professional development.
- Additional investment in our full day 4K program.
- Additional investments in the district's multi-year priorities outlined in our Strategic Framework that have proven outcomes, such as:
 - Adoption of new curricular resources for accuracy and cultural relevancy.
 - Expansion of mental health supports with newly identified Get Kids Ahead funding.
 - Personalized opportunities for post-secondary success.
 - Continuing investments in youth through the Black Excellence Fund aimed at meeting the social-emotional and academic needs of Black youth, and creating advanced opportunities for students with a focus on students of color.
 - Funding for restorative justice opportunities.

This Preliminary Budget is a public document intended to communicate our plans and budget for 2023-24 in order to gain feedback and input from our community. We welcome input from all interested parties during the budget review process at mmsd.org/budget

In the sections which follow, each segment of the budget development sequence is described in detail. There are strategic investments and reallocation of existing resources recommended throughout the proposal. We continue to use the district's Educational Equity Policy, Equity Tool, the MMSD Strategic Framework, and our budget goals and principles to guide our decision making and keep our work on behalf of all of our students and their families moving forward.

Budget Goals and Guiding Principles

This year's budget development process continues to build on our progress from last year, with a focus on achieving five major goals:

- Distribute equitable use of resources to support students with the highest needs.
- Reduce the number of sections below minimum of the Board's class size policy, thus allowing for more targeted resource allocation.
- Utilize the Board's Educational Equity Tool for decision making outside of already approved Board policies.
- Invest in a focused set of priorities aimed at multi-year investments to meet persistent equity needs, with primary focus on Early Literacy..
- Provide total compensation (steps + base wage) to employees using state budget information to guide budget development.

The Board and Senior Leadership Team together developed a set of guiding budget principles to provide clarity and consistency in the budget development process. Our budget effort has been guided by the following principles:

- Allocate resources in line with District core values, aimed at greatest impact on District's Strategic Framework goals with a primary focus on Early Literacy and Beyond.
- Maintain a multi-year, long-range perspective on both revenue sources and strategic investments, including accelerated academic outcomes, and ongoing COVID-19 safety measures.
- Maximize operational efficiencies and use of taxpayer-approved revenue authority to ensure stability in schools during a time of great uncertainty.
- Build on practices that are showing data which has supported promise for the future.

Revenue Forecast

The 2023-24 Preliminary Budget includes a revenue projection based on the revenue authority and State aids provided in the 2021-23 biennium budget.

On the local level, the Madison community supported an operating funds referendum in November 2020 which provides a funding source needed to sustain our investments and strategic vision. We appreciate the support of our community, and are committed to putting every dollar to its best use in this budget proposal.

In the current state funding model for Wisconsin school districts, declining enrollment experienced during the past several years will continue to have a lasting impact on our operating revenue. This, combined with other state commitments made for voucher and charter programming, will continue to apply downward pressure to our operating budget.

The 2023-24 revenue forecast built into the Preliminary Budget is based on the following major inputs:

- MMSD's three year rolling average will fall 219 FTE. This is inclusive of summer school and Independent Charter School (2x) FTE.
- A \$0 per pupil increase in the revenue limit prior to state budget finalization.
- A \$0 per pupil categorical aid increase prior to state budget finalization.
- A special education categorical at a prorated reimbursement threshold of 30% prior to state budget finalization.
- Use of the district's revenue authority based on these assumptions would produce a tax levy increase of 2.83% based on a decrease of 15% in state equalization aid. Equalization aid estimates update throughout the budget development process based on changes in property value and shared costs across the entire state.
- This budget assumes zero growth in funding levels for MMSD's major federal grants. With multiple years of cost-of-living increases not reflected in our federal funding growth, the school level buying power with their federal funding continues to decrease.
- This Proposed Budget includes \$42.3 million in federal funds. Use of ESSER III funding must be concluded by September 2024.

Three Major Revenue Factors: the Revenue Limit, State Aids, and Local Taxes:

The state Revenue Limit Formula imposes a cap on MMSD's two major sources of revenue: local property taxes and state equalization aid. By design, most of MMSD's recurring operating revenue is controlled by the revenue limit.

Budget estimates for these two sources of revenue are determined by a three-step process of (1) calculating the Revenue Limit Formula for MMSD, (2) estimating state general aid, and (3) determining the tax levy. The three-step process can be expressed as an equation:

(Revenue Limit Formula - General State Aids = Allowable Local Property Tax Levy)

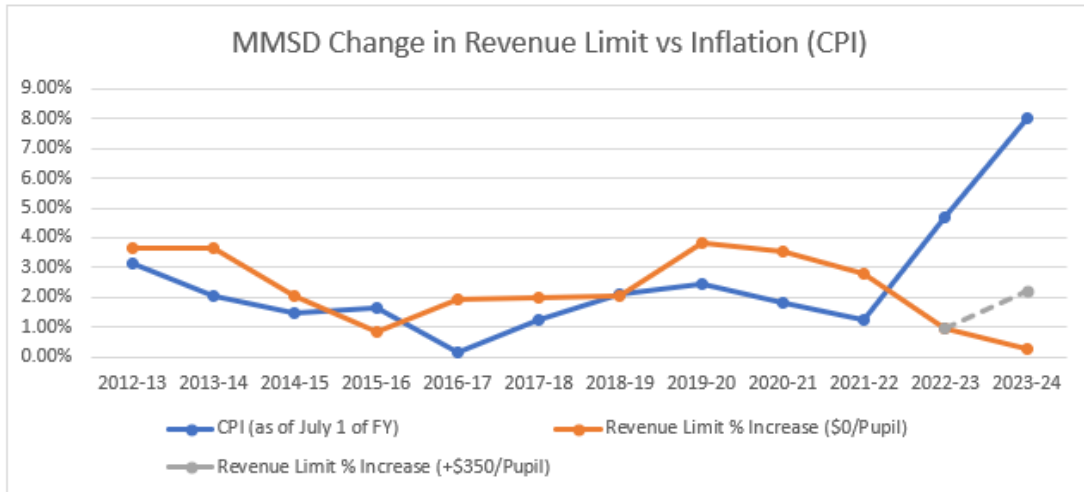

Step 1: Determining the 2023-24 Revenue Limit

The Revenue Limit Formula is the first step in the MMSD budget development process. Sometimes known as revenue caps, revenue limits are state-imposed controls on the amount of money a school district can receive through a combination of state general aid and local property taxes. The revenue limit is calculated based on the change in a three-year average enrollment trend and per-pupil formula increases in the state biennium budget. The revenue limit has become highly volatile due to state-level politics for the last 10 years. Prior to Act 10, per-pupil adjustments to the revenue limit were a reliable way to address inflation of costs. Since 2011-12, changes to the revenue limit have become more unreliable.

In the last several years, districts around the state experienced a sharp decline in K-12 enrollment. The revenue limit is designed to react to changes in enrollment to shape how revenue limits are calculated. Until recently, our revenue limit along with our operating referendum has been able to keep pace with the rate of inflation. For 2023-24, the combination of declining enrollment and several years of state compression of revenue limit authority continues to produce consistently low increases in the revenue limit. This has created a significant gap in the district's ability to address inflation as it has in the past.

The difference between a school district's revenue limit and its general aid amount determines the maximum amount of property taxes the district is allowed to raise. If additional general aid funding is provided, the property tax levy would be reduced by a corresponding amount. Or, if general aid funding is reduced, the school district has the authority to increase the property tax levy up to the revenue limit.

A district is not allowed to levy above the revenue limit without voter approval through a referendum to exceed. In November 2020, the Board of Education requested voter approval to exceed the revenue limit of \$6 million and \$8 million in 2020-21 and 2021-22 school years, and \$9 million and \$10 million in 2022-23 and 2023-24 school years. These amounts are included in the calculation for the revenue limit.

Step 2: Estimating General State Aid (Including Equalization Aid)

By providing state equalization aid, the state "shares" in funding the MMSD annual budget. Costs that are aidable by the state are called "shared costs." The amount of state aid the district receives is important. The less state aid MMSD receives, the more revenue which has to be raised through local property taxes.

Because property values vary widely across the state, school districts differ in their ability to raise property tax revenue for educational programs. The equalization aid formula is designed to compensate, through state aid, for a given district's lack of fiscal capacity ("ability to pay") through property taxes. Since MMSD's property value per pupil and cost per pupil is well above the state average, roughly 90% of all funding to support the district comes from local property taxes.

The Preliminary Budget includes an estimated General Aid decrease of 15%. The amount of general aid we receive is based on year-end data from all school districts in Wisconsin, and the relative change in property value for all municipalities included within MMSD. These aid amounts are not finalized until October 15 of each school year, four months into the budget year.

General Aid History – Table:

	2019-20	2020-21	2021-22	2022-23	2023-24 Proj.
Intradistrict / Special Adjustment Aid	251,182	125,937	64,003	6,548	17,733,902
Equalization Aid	36,550,835	38,400,982	40,192,458	44,242,815	19,675,490
General Aid	36,802,017	38,526,919	40,256,461	44,249,363	37,409,392

Other Major State Categorical Aids: Special Education and Bilingual-Bicultural & English Learners (ELLs) Education

Categorical Aid programs are designed to “reimburse” a school district for eligible expenses in the prior fiscal year. These funding sources are in addition to the authority granted under the state revenue limits. Each year, when we submit these eligible costs to the state in our annual reporting, we receive an estimate based on the current state budget’s appropriation for these programs. These estimates are given as a percentage reimbursement of those costs.

These estimates have historically been based on “sum-certain” appropriations in the state budget. A sum-certain appropriation signifies a finite level of funding for a particular program. This means that the estimates we receive after submitting our annual report will change based on all other submitted eligible costs from other school districts in Wisconsin. It is common for districts to receive a higher estimate than what is actually paid for these programs by the time they are received. This can be best expressed as everyone receiving a smaller slice of the same pie. As demand increases (more eligible costs) the pie doesn’t get bigger, everyone receives a smaller slice.

Wisconsin has had almost a decade of flat funding in special education and bilingual education. The costs associated with these programs have not kept pace with the reimbursement rates proposed in state budgets. The 2023-25 State Biennial Budget requested increased reimbursement for special education and bilingual education expenses in 2023-24 and 2024-25. In the past when these reimbursements have been requested by state budget proposals, they have not been approved. At this point in the budget process, we are not anticipating an increase in categorical aid programs until this picture is more clear. We are currently estimating a sustained reimbursement rate for 23-24 at for special education and bilingual education aid based on the prior state budget. We will be watching the state budget discussions closely for 23-25 to see if these rates will change.

Step 3: Tax Levy Estimate

Applying the equation (Revenue Limit Formula - General State Aids = Allowable Local Property Tax Levy) brought us to a Preliminary Budget local property tax levy for 2023-24:

The tax levy recommendation included in the Preliminary Budget Proposal includes:

- A total “All Funds” tax levy increase of 2.83%
- Equalized tax base increase of 8% (estimated)
- Tax rate decrease of \$0.48 per \$1,000 (from \$9.97 per \$1,000 to \$9.49 per \$1,000)
- Impact per average home value of +\$34.95 (Estimated Average Home Assessment Increase 6%)

Property Tax Levy – History and 2023-24 Proposed Budget

PROPERTY TAX LEVY SUMMARY	Actual	Fall Budget	Proposed

Maintaining a Strong Balance Sheet: Fund Balance Ratio

The General Fund Balance ratio (or ‘solvency’ ratio) is a commonly-accepted measure of a school district’s financial condition. The General Fund Balance is equivalent to the ‘equity’ account on the balance sheet of a private enterprise. The fund balance is a “snapshot” at a given moment in time.

State statutes do not require that a set amount or percent of a district’s overall budget be maintained as a fund balance; this is a local decision. MMSD policy requires a General Fund Balance within a range equal to 10% to 15% of the operating budget.

Excellence & Equity Projects

Every year, regardless of the financial environment, we work hard to align key budget investments to the goals and priorities outlined in our Strategic Framework. Our Strategic Framework outlines a clear set of ambitious goals:

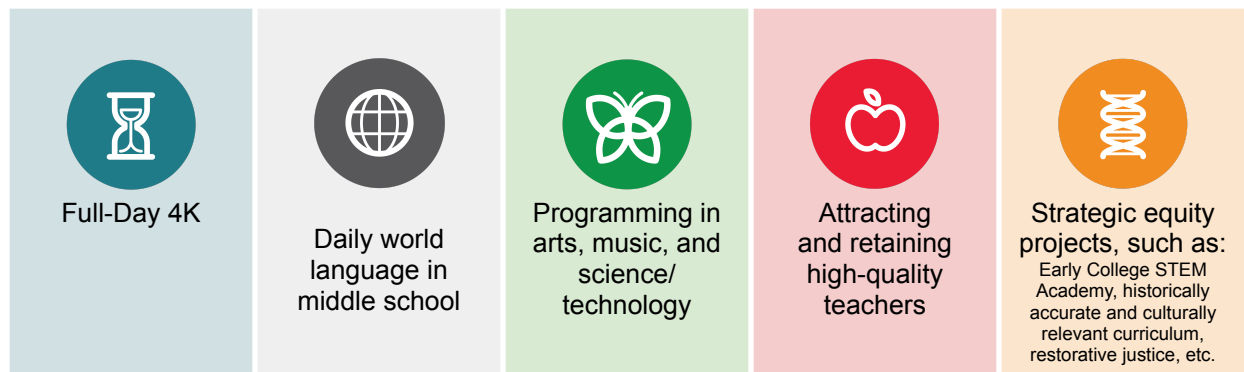

Goal 1: Every child is on track to graduate ready for college, career and community.

Goal 2: The district and every school in it is a place where children, staff and families thrive.

Goal 3: African American children and youth excel in school.

Our Strategic Framework also outlines a set of strategies which include: 1) empowering school communities, 2) investing in people, 3) streamlining central office priorities (with an emphasis on deeper learning, culture and climate, and personalized opportunities for post-secondary success), 4) planning for the future, and 5) innovation.

In addition to these necessary alignments, our budget resource makes investments with the feedback provided from our schools and community through the Referenda 2020 process. The areas of investment supported by the community through the November 2020 operating referendum are:

In order to ensure we are making progress toward our goals and promises to the community, we have defined a set of Excellence & Equity Projects. Unlike previous years, we are building many of our Excellence & Equity Projects with one-time funding afforded to us from our federal ESSER awards. We anticipate many of the strategies and programs we are putting forward will need to end once these funds are exhausted. We are hopeful that in future state budgets, we will be able to return to a more strategic investment strategy as a district with a stronger state budget commitment to K-12 funding.

In addition to these investments, the district also goes through a prioritization process which allows resources to be redistributed to higher and better uses each year. Making significant investments of current resources (time, money, etc.) to efforts supporting students is in line with the Strategic Framework. Examples over time include our commitment to racial equity training for all staff; exploration of new partnerships to support our Grow Your Own program to increase staff diversity; and developing historically accurate, inclusive, and culturally representative curriculum.

The Excellence & Equity Projects identified below are funded from multiple sources, including repurposing of existing resources, federal resources, and unique one-time sources provided by the governor.

Below are the new investments for the 2023-24 budget in support of the goals and outcomes stated within the MMSD Strategic Framework, and further supported through the 2020 referendum vision.

Empower School Communities

Village Builders

During the 2022-23 School Year, a major investment in MMSD Village Builders was started in our EDEI department. For the remaining duration of these ESSER III funds, an additional 8.000 FTE will be created during the 2023-24 school year to address needs at more of our buildings identified as ATSI, in order to meet the needs of our scholars.

- Additional 8.000 FTE for Village Builders in 2023-24 from ESSER III Funding

Invest in People

Total Compensation

In MMSD, we invest in hiring and retaining high-quality, diverse staff. A compensation strategy which attracts and retains the best talent is essential to our students' academic success. The Total Compensation Plan includes all salaries and benefits.

- Step & lane advancement from operational resources.
- Base wage increase for all employees of 3.5% from operational and one-time resources.

Streamline Priorities

Deeper learning experiences that engage, challenge, and support all learners

Early Literacy and Beyond

In MMSD, we believe reading is a moral imperative for all students. Rooted in our commitment to ensuring all students graduate ready for college, careers and the community, all students in MMSD will receive high-quality, grade-level accelerated instruction. Therefore, we are being very intentional about our commitment to early literacy and beyond. This is THE priority work of our district moving forward. For too long, reading results have not met our expectations. In response, MMSD is moving to an entirely new reading curriculum and philosophy for early literacy and beyond. These investments will be steadfast and focused, outcomes will be measured, and results are expected. (See plan in the Appendix). MMSD is moving toward the implementation of the Science of Reading (SoR). We are using Language Essentials for Teachers of Reading and Spelling (LETRS) as our foundational approach to provide key stakeholders with the knowledge of SoR, and the skills to teach reading. All supporting teachers of reading instruction, Instructional Coaches, and Principals will receive LETRS training over the next few years, with deep professional development happening over the summer and throughout the school year.

As part of our commitment to Early Literacy and Beyond, all schools 4K-12 will continue with a focus on training around the science of reading, and K-5 schools will continue with the implementation of new biliteracy materials. Middle Schools will begin implementation with new bi-literacy materials. In addition all

secondary schools will continue with Quality Teaching for English Learners (QTEL) and Advancement Via Individual Determination (AVID) training.

The new curriculum will align to the SoR, and allow students and teachers to benefit from the standards-aligned, culturally relevant materials. QTEL training will be provided to ensure that language and content development are attended as part of universal instruction, and can be leveraged explicitly for English Language Learners. Increasing the use of AVID strategies throughout our district will ensure we have streamlined, proven strategies to support our literacy efforts.

Full-Day 4K

In support of the Early Literacy and Beyond focus area of the district, we believe all children have a right to high-quality early childhood learning experiences. Research suggests a full-day 4K program has a high return on investment for academic outcomes of our early learners, and directly closes opportunity gaps we see in our community related to early learning opportunities. Full-day 4K is a program which has been discussed in the Madison community for many years, and was a primary focus for referendum support. Resources directly support the additional FTE needed to move to more full day programs, and re-imagining classroom materials and play opportunities to support the whole child.

As we continue our phased implementation to expand full-day 4K, new sites selected had high populations of students with free and reduced lunch and high populations of students of color. This criteria was used as full-day 4K is being used in our district as an equity strategy to close achievement gaps and ensure every student begins their educational trajectory as a thriving student. Below is a list of the sites and sections that will be offered for full day for the 2023-2024 school year. Some of these sites reflect conversion of half-day to full-day programming, but show a net add of full day sections for 2023-24.

New programming for 2023-2024

- Emerson - 1 Full Day Section (half-day to full-day)
- Henderson - 3 Full Day Sections (half-day to full-day)
- Kennedy - 4 Full Day Sections (+1)

Madison Promise

The impacts of COVID-19 continue to be felt across our community in many ways. Public schools across the nation discovered that some of their students flourished in a virtual environment versus being in a comprehensive school setting. As such, MMSD seeks to continue building a program that will provide students and families with an online experience to meet their educational needs in a personalized manner.

For fall 2023, Madison Promise will continue to operate out of Central Office with students still enrolled in their local comprehensive schools. This is similar to most of our alternative programs. During the 2023-24 school year, we aim to sustain our online experience for families and identify a path forward to support scholars under Madison Promise. Funds identified on ESSER during the 2022-23 school year will be sustained for one more year while these funds are available.

- \$625,000 in teacher FTE to support online learning options using ESSER funding
- \$400,000 in virtual program licenses using ESSER funding

Housing Navigator and Unaccompanied Youth Mentorship

MMSD will contract with the YWCA for the provision of housing navigation and stabilization services for our families experiencing or at risk for homelessness. The Family Housing Stability Coordinator contracted through the YWCA will be responsible for providing diversion services to MMSD families not eligible for Dane County Housing First programs. This includes families who are doubled up and/or have not yet entered the shelter system. Important to note, doubled up families and those self-paying in hotels are not eligible for housing prioritization in Dane County under current Housing and Urban Development laws. In MMSD, the majority of our students and families experiencing homelessness are in doubled up situations. The Family Housing Stability Coordinator will oversee all aspects of assistance that will help participants gain and/or maintain housing stability. The Family Housing Stability Coordinator will provide culturally inclusive, trauma-informed programming and services, and will incorporate best practice techniques into the program.

In addition, the numbers of unaccompanied homeless youth (UHY) in MMSD have risen while the resources have declined during the years of the COVID pandemic. Therefore, MMSD will contract with Briarpatch Youth Services to focus on individualized plans of support for UHY attending high school or middle school in MMSD. If there are too many identified students, this project will start in the highest density schools (East and LaFollette) so that it can be efficient with time and resources. This partnered support will be provided in three primary focus areas, including academic growth, well-being and community connection goals, and obtaining the resources needed for students to successfully achieve these goals. The chosen areas of focus will prepare our youth for academic success, self-care, and independence in adulthood.

- \$75,000 for a contract with YWCA for housing navigation and stabilization services using American Rescue Plan (ARP) Homeless funding for 2023-24
- \$50,000 for a contract with Briarpatch for youth engagement using American Rescue Plan (ARP) Homeless funding for 2023-24

Innovation

Land Acknowledgement Plan

Native American students and parents are creating a district-wide plan and approach to appropriately acknowledge the Ho-Chunk tribal land that all of our schools are on. This budget request supports the implementation of the plan that was initiated in 2021-22 with resources for small culturally-appropriate ceremonies and plaques at each site.

- \$30K per year over five years (beginning in 2021-22) from operational funding

Summer Arts Academy 2023

MMSD students in grades K-12 will be invited to participate in a program offering performing and visual arts opportunities for the summer of 2022. MMSD recognizes the need for students to have access to more arts programming, and seeks to immerse and engage students who may or may not have a current interest in the visual or performing arts by removing financial, structural, and social barriers. The offerings will be available within MMSD's school settings as well as the Madison community.

The Summer Arts Academy's vision serves to provide **exposure, enrichment, and engagement for students, in the interest of equity of access, and eventual enrollment in our performing and visual arts opportunities in the district.**

- Programming geared toward self-expression, self-identity, and building students' interests in arts experiences.
 - Providing improved access through use of school and nearby city settings.
 - Ensuring programming is free of charge for students.
 - Targeting historically excluded student populations with unique, inspiring learning opportunities.
- \$500,000 to fund the 2023 Summer Arts Academy program, to be funded through federal ESSER II funding

ESSER Planning

The Elementary and Secondary School Emergency Relief Fund grant program authorized under the American Rescue Plan (ARP) Act, provides additional money for local educational agencies (LEAs) to prevent, prepare for, and respond to COVID-19. ESSER III supplements ESSER I, created by the CARES Act in March 2020, and ESSER II, created by the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act in December 2020.

The first of these awards have been used over the last two years to address the needs of our students and staff as we were engaged in virtual learning. The timeline for use and overview of these funds is listed below.

ESSER I: Coronavirus Aid, Relief and Economic Security Act (CARES Act) \$5.2 M

GEER: Governor's Emergency Education Relief Fund \$3.8M

- MSCR Daycare, Food and Nutrition, Technology, SPED, PPE / Sanitation, Health Services
- Private / Parochial Equitable Share
- Spending Deadline: September 2022

ESSER II: Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) \$18.9M

- Operational Expenditures
- Big Ideas / Reimagine Classrooms and School Spaces
- Ongoing Realignment in 2023-24 Overall ESSER Plan
- Spending Deadline: September 2023

ESSER III: American Rescue Plan Act (ARPA) \$42.5M

- Safe Return to Schools Plan
- ESSER III District Plan
- 20% Reserved for Addressing Learning Loss
- Community and Stakeholder Input
- Spending Deadline: September 2024

Program	Amount	Eligibility End Date	Year of Planned Use
Elementary and Secondary School Emergency Relief Fund - ESSER I	\$ 5,264,492	9/30/2022	2020-21
Governor's Emergency Education Relief Fund - GEER	\$ 3,890,143	9/30/2022	2020-21
Dane County ESSER funds for Mental Health	\$464,986	12/31/2022	2021-22
CRRSAA - Coronavirus Response and Relief Supplemental Appropriations Act - ESSER II	\$ 18,922,920	9/30/2023	2021-22 2022-23
ARPA - American Recovery Plan Act - ESSER III	\$42,535,075	9/30/2024	2022-23 2023-24

In our planning for the 2023-24 school year, we have established a number of priorities using the grant's required guidelines to prevent, prepare for, or respond to COVID-19. The five major areas are as follows:

Preparedness and Response

- PPE; sanitation supplies; improving indoor air quality; COVID testing

Addressing Longterm School Closure

- Limited Term staff to support learning loss; instructional software

Outreach and Services for Special Populations

- Professional development for staff to serve English Learners remotely; addressing long-term school closure and learning loss for underserved populations.

Mental Health Services and Supports

- Additional school based mental health supports, suicide prevention, and mental health services.

Education Technology

- Devices, software, and infrastructure for remote instruction; improved cybersecurity.

The district plan for the 2023-24 budget will include utilizing \$42.3 million in project funding from the ESSER III award. During 2023-24, we anticipate to use the remaining ESSER funds for MMSD towards projects and positions established during 2022-23. In addition, we will use approximately \$11.5 million to sustain existing positions due to lack of state investment in operational revenue streams. The table below outlines the expense and detail by grant category that is anticipated to be expensed during the 2023-24 school year. All ESSER funding must be spent by the end of September 2024.

Total Compensation: Salaries/Wages and Employee Benefits

A compensation strategy which attracts and retains the best talent is essential to our success and supports the Strategic Framework Shift #2: Investing in Employees. The Total Compensation plan, including salaries and benefits, in combination with the staffing plan, comprise the annual personnel budget for MMSD.

The annual investment in personnel, net of federal one-time funding and assigned fund balance, for the Preliminary Budget represents nearly 80% of the MMSD recurring operating budget (the operating budget is defined as the General Fund and Special Education Fund, net of inter-fund transfers) with salaries accounting for 55% and employee benefits accounting for 21%.

Salaries and Wages

Included in the Preliminary Budget proposal is advancement of staff on established salary schedules and a base wage increase. This includes increases on the following salary components: a base wage increase of 3.5%, a fully-funded step and lane advancement (2.0%).

Base wage is a required subject of collective bargaining. The Wisconsin Employment Relations Commission (WERC) (see http://werc.wi.gov/doaroot/cpi-u_chart.htm) sets the maximum base wage increase (CPI-u) allowed under state law, which was 1.23% for contracts starting July 1, 2021; 4.70% for contracts starting July 1, 2022, and 8.01% for contracts starting July 1, 2023..

In 2020-21, the average total compensation increase for staff was 2.5%. The base wage percent increase was 0.50%, and step advancement averaged approximately 2% for employees. In addition to this, the district provided all staff with a one-time bonus in January of 2021 that totaled approximately \$3.5 million.

In 2021-22, the average total compensation increase for staff was 3.23%. The base wage percent increase was 1.23%, and step advancement averaged approximately 2% for employees.

In 2022-23, the average total compensation increase for staff was 5.00%. The base wage percent increase was 3.00%, and step advancement averages approximately 2% for employees. In addition, hourly wages were increased for educational assistants, clerical, security, and food service by \$5/hour. This increased wages for these groups approximately 30% in addition to the average increases above.

For the 2023-24 Preliminary Budget, the base wage increase is at 3.50%. Step advancement on the salary schedule, which is on average 2%, results in a 5.50% total compensation average increase for employees.

Health Insurance

MMSD aims to cultivate a work environment that attracts, develops, and retains top talent. A high-quality health insurance plan for staff is a critical component of that goal. Health insurance is also considered one of MMSD's highest leverage equity investments in staff. As a critical benefit to our part-time employees, MMSD provides full benefits to all part-time employees who work more than 19.5 hours a week. This group includes our Food Service workers, Special Education and Behavior Education Assistants. These employee groups also tend to be our most diverse population, and many of our own students' parents/guardians. A second critical equity strategy, also very unique to MMSD, is our tiered employee percentage contribution to healthcare. Rather than all employees paying the same % of their healthcare package, MMSD uses a tiered approach such that the lowest paid employee unit pays the least and the highest paid employees pay the most.

The goal of the healthcare strategy was to maintain stability in health insurance benefits and in the employee benefits with very little plan design. Due to the impacts of the global COVID-19 pandemic, maintaining a stable healthcare plan continues to be one of the primary investments in staff, in addition to the salary increases stated above. Overall, health care costs are budgeted without any plan design changes in place.

The following plan design changes will not change in the upcoming year:

- \$20 copay
- \$100 single / \$200 family HMO deductible
- \$6 / \$15 / \$30 RX
- Tiered Employee Premium Contribution, averaging 6%

Healthcare negotiations this year also produced rate cap guarantees for the future three budget years. GHC rate cap guarantees for the HMO plan are 3.5% (23-24). For Dean's HMO plan, it is 3% 23-24. For more information on the POS and the HMO plan and MMSD's EPC categories please go to: mmsd.org/human-resources

Health insurance is important from a budgetary perspective due to its very large share of the total operating budget. Annual premiums for active and retired employees are budgeted to be \$65.3 million.

As of April 2023, a total of 3,899 employees are enrolled in an MMSD Plan, with 32% of the enrollments in single coverage and 68% in family coverage. 71% of our employees are enrolled in GHC, and 29% are enrolled in Dean. As noted in the chart below, teachers make up 59% of our total employees receiving benefits and 9% are retirees still on MMSD's healthcare plan.

Health Insurance Enrollment by Employee Type

Dental Insurance

MMSD will plan for approximately \$4.0 million in the 2023-24 budget on dental coverage. The budget for 2023-24 does not require significant additional budgetary outlays in dental rates next year. The plan is currently adequately funded. Typically, employee dental costs increase slightly each year due to an actuarial evaluation of the plan. Delta Dental serves as the third-party administrator.

The dental plan was expanded on January 1, 2020 to increase the annual plan maximum from \$1,000 to \$1,200 per member. Additionally, basic restorative services increased from 50% coverage to 80% coverage, with a \$25 annual deductible. These changes were made without impacting premiums due to Delta Dental's ability to renegotiate provider networks at a lower cost to MMSD.

**Life Insurance**

MMSD will plan for approximately \$663,000 on Life Insurance in the 2023-24 budget for current and retired employees. The budget assumes no material change in rates for next year. MMSD changed life insurance carriers effective July 1, 2017 following a bid and vendor evaluation process. The district's life insurance plan is self-funded, with The Standard now serving as the third-party administrator.

LTD (Long-Term Disability) Insurance

MMSD will plan for approximately \$1.96 million on LTD coverage in the 2023-24 budget. A minor change in the plan in 2019-20 ensured LTD claims match MMSD's policies and procedures regarding leave of absences.

WRS Pension Contributions

Beginning in 2011, WRS pension contributions are shared between the employer and employee. The employer contribution rate is set for calendar year 2023 at 6.80%. For budget purposes, the contribution rate for calendar 2024 is estimated to remain 6.80%.

Other Non-Budgetary Benefits

MMSD provides employees additional voluntary benefits, including vision insurance, flexible spending accounts, supplemental life insurance, and short-term disability insurance. While these benefits have no budgetary impact since they are 100% employee paid, they complete the employee Total Compensation package, ensuring we are investing in and fully supporting employees.

Required Budget Allowances

The items identified below represent major accounts in the MMSD budget which require changes in funding, based on legal requirements, previously approved Board plans or policy, current year budget-to-actual performance, or based on a proven need pertaining to next year. The actions proposed below are necessary adjustments that will help ensure an accurate and dependable budget.

In previous years, we have increased budget allowances as necessary in critical areas such as substitute teachers costs, transportation, post-employment benefits, and utilities. In addition, we must account for 2x charter growth, open enrollment out rate increases, and state voucher program impacts (2x charter impact discussed in detail in the Appendix).

2x / Independent Charter School (2x) Expansion: We anticipate further growth in 2x charter enrollment during the 2023-24 school year. During 2022-23 we saw one of the largest single increases in enrollment from some of the 2x charter schools in the Madison area. For 2023-24, we anticipate this trend to continue, with an estimated net increase of \$1.7 million additional expenses based on preliminary estimates. This will not be finalized until the Fall of 2023.

Open Enrollment In/Out Net: For budgetary purposes, open enrollment results can be difficult to predict. MMSD's trends for Open Enrollment remain inconsistent in the years after the initial COVID 19 pandemic. Open Enrollment "In" has slowed considerably while Open Enrollment "Out" has been showing an increase. Final Open Enrollment pupils counted at year end will determine final impact of Open Enrollment, but the net impact to the 2023-24 budget is estimated at \$780,000. We are still unclear of the final fiscal impact without an approved state budget for the 2023-25 biennium.

Transportation Contract Increases: MMSD released a request for proposal (RFP) for 2023-24 after several years of extending existing transportation agreements. This resulting bid will change our transportation carriers for the 2023-24 school year and will generate an incremental cost of \$4,200,000 for the 2023-24 budget.

MSCR Space Expansion and Lease Costs: Capital planning for the 2020 referendum included displacing MSCR from the Hoyt building beginning in the 2023-24 school year. MSCR has secured new locations off of John Nolen (MSCR Central) and on the west side of Madison near West Towne Mall (MSCR West). As renovations proceed to outfit these new spaces to resume regular MSCR programming, we are making the final year adjustment to annual lease costs of spaces. In future years once these spaces are fully operational, we anticipate that MSCR will be able to increase their course offerings to more members of the community. The adjustments to the Fund 80 budget for 2023-24 include the last of these lease costs and renovations.

Budget Management: Finding Efficiencies and Improving Business Practices

As part of the annual budget development process, we review three-year trend financial activity of each school and department, and we meet with each Central Office Department to review their budget in line with their work streams and the priorities of the MMSD Strategic Framework. We use this process to problem solve within department budgets, identify areas of additional investment, and look for areas for cost savings, operating efficiencies, and process improvements.

The Senior Leadership Team reviewed the data and confirmed if resources should remain intact in the upcoming budget, be repurposed, or that new resources are needed to expand the outcomes for students.

Finding cost savings and reallocating resources are core aspects of MMSD budget development. Over the last eight years, millions have been repurposed or cut from the Central Office department budgets using this process.

As we navigate the 2023-24 budget development process, we continue to navigate an uncertain revenue stream and a significant amount of one-time funding. We are being asked to operate with fewer resources, despite the highest inflation that that country has seen in over 40 years. This is making it increasingly difficult to maintain our existing services with the level of recurring resources at our disposal. As we strive to use resources responsibly, we still must look for efficiencies that will help us maintain our ongoing operations. The 2023-24 Preliminary Budget includes approximately \$2.7 million of cost savings and efficiencies out of central office departments to help maintain building level services and staff. These savings can be summarized into the following:

Department	Position/Program	Cost	FTE
Admin Services Total	FTE Reduction (Consolidation)	130,000.00	1.00
Advanced Learning Total	FTE Reduction	45,500.00	0.50
Assoc Supt High Schools Total	Non-Personnel Reduction	17,000.00	-

Technology Services Total	FTE Reduction	116,000.00	1.00
Grand Total		2,745,250.00	21.77

The majority of these reductions from Central Office departments represent reductions in mostly vacant positions and some limited programming costs that are being reduced due to inactivity.

Staffing Plan for 2023-24

The 2023-24 staffing plan was designed to comply with the revised class size policy from 2017, with an emphasis on minimizing class size outliers on the low end to maximize efficiencies in the budget. In line with policy, the allocation formulas were set to be at 'optimum +1 +2' across all K-12 sections.

The staffing process begins in the fall of the previous year with an analysis of our enrollment projections to the September third Friday student counts, and then updates to the next year's enrollment estimates. High level allocation decisions are made in January in line with the districts allocation formulas, using the enrollment projections and our class size policy. School level allocations and assignments were made in February-March, with support labs offered to help principals as needed in the allocation process.

As summarized in the table below, total MMSD staffing will go from 4,170.8 full time equivalent (FTE) to 4,015.7 FTE. The 2023-24 Preliminary Budget reflects 84.5 FTE in one-time allocations coded to federal ESSER funding. This is in comparison to 75.6 FTE in the 2022-23 school year. In addition to one-time positions funded in both fiscal years, just over 110 FTE are being funded on ESSER III for 2023-24 due to operational funding shortfalls. It is important to acknowledge that ESSER is one-time funding that must be used by September of 2024. We have made it clear in all our proposals and internal discussions that positions created using these federal dollars must expire within this time frame without new funding sources identified. Other fluctuations in overall staffing levels reflect building level allocation decisions that will be discussed in the footnotes below. Since the onset of the COVID-19 pandemic, enrollment in MMSD has dropped over 5%. In addition to this, MMSD has been seeing slight enrollment declines due to low birth rates in Madison. Due to the nature of funding at the state level, this decrease in population will affect our ability to sustain our level of services in many areas.

	Fall 19-20	Fall 20-21	Fall 21-22	Fall 22-23	Budget 23-24

Monitoring and Responding to Changing Conditions:

During budgetary planning in the Spring of 2023, the staffing plan above included a pool of approximately 20 FTE to be used as needed to ensure appropriate staffing based on actual enrollment, student need, and/or where class sizes fall above the MMSD class size standards. At the time of the Preliminary Budget, some of these unallocated FTE have been placed at the building level. All decisions to adjust FTE at schools are made after monitoring actual enrollment and in consultation with building principals.

Table Notes:

- Columns marked “Fall” of a given fiscal year represent staffing at the time of the adopted budget for each corresponding fiscal year. “Budget 23-24” represents staffing for the 2023-24 Preliminary Budget.
- Staffing as shown for 2023-24 reflects the staffing work of building principals and administrators in the Spring of 2023. The 2023-24 staffing plan will evolve to reflect the staffing changes which will be made by schools and departments during the coming year. These changes include reclassifications of positions, conversions of one position to another, and changes to the use of grant funding in order to best utilize the resources available to the district.
- This table includes a reduction of 89.651 IDEA FTE between 2022-23 and 2023-24 for one-year positions coded to IDEA Flow Thru necessitated by IEP need or Principal discretion. These positions need to be reassessed annually after July 1 through ongoing collaboration with the Student Service Team.
- It is important to note that our Title I resources have not increased over time. Because cost of living has increased, and thus salaries, this means that schools have less FTE buying power. At the time of this table’s creation, Title I FTE are currently stable between 2022-23 and 2023-24 within a 2.500 FTE reduction
- Changes in total administration are reflective of reductions identified during strategic budgetary realignment
- The Assistant Principal allocation has decreased by 1.000 FTE due to declining enrollment and revaluation of site supervision.
- Change in Teacher FTE is largely due to changes in projected enrollment at all levels. The table below breaks this down in more detail. Please note that this includes federally funded positions already identified above
- The change in EA staff is similarly reflective of reduction in IDEA staff between 2022-23 and 2023-24. These FTE needs will be reassessed after July 1 prior to fall approval. (See third bullet above).
- Enrollment declines affect building allocation to adhere to board class size policies. As sections are adjusted, specials teachers (art, PE, music, etc.) are also affected.

School staffing plans are created carefully by each school principal with support from the Human Resource team, Teaching and Learning team, and the Budget office. Staffing plans are based on enrollment projections from the Applied Populations Lab at UW. Since actual fall enrollments will vary from the spring projection, adjustments to the staffing plan are made as needed.

The following table provides a snapshot of MMSD’s total teacher FTE across three fiscal years. Staffing levels for each position are not static: to meet the ever-changing needs of students, schools and departments have limited flexibility to convert from one position to another, causing the district’s FTE mix to frequently change. Because these conversions are based on established conversion ratios, however, the total cost of staff remains stable relative to any additions or reductions in staff.

Teacher Staffing Summary (FY 2021, 2022 and 2023)

The below chart provides more detail in the 2,579.9 FTE teacher allocations, 64% of the total staffing allocation. Despite declining enrollment trends, we have made every attempt to preserve staffing at the building level.

Table Notes:

- The first four categories are regular education teachers, including classroom and specials teachers, teacher-leaders, instructional resource teachers, and interventionists. Principals have flexibility about how to use these positions to staff their schools. The first category reflects

teachers who are not school-based, so it includes teachers at alternative program sites, central office, virtual programming, and district-wide. This category also includes teachers provided from central office departments who actually work at the schools. The next three categories include regular education teachers at the elementary, middle, and high school levels.

- The changes to regular education teachers reflect not only the enrollment-based and budget-based changes, but also the staffing changes (conversions) made by the schools during the staffing workbook process. This teacher staffing chart would not be able to reflect conversions made from teacher allocation into other types of staffing (i.e., education assistant, clerical, etc.). Please note that this comparison shows fall 2022-23 data to fall 2023-24 data. Unallocated resources are updated at the building level based on our enrollment tracking over the summer.
- The English Language Learners (ELL) position allocations remain largely unchanged from 2022-23 to 2023-24. These ESL/Bilingual Resource Teacher positions include both central office and school-based bilingual resources and English as second language teaching positions. Despite enrollment shifts over the last year, we held positions nearly constant in order to improve student support ratios. This line shows a small drop due to conversions of a small number of these positions to a Bilingual Resource Specialist (BRS) from a Bilingual Resource Teacher (BRT) with department approval as enrollment declined.
- The Student Services teacher positions are divided into school-based and non-school based full-time equivalent employees; however, Student Services teachers typically serve students and/or support schools.
- Unallocated totals are totals as of the Preliminary Budget. Unallocated will be placed at schools as needs arise through the school year.

Conclusion

This Preliminary Budget is based on the most recent information available as of April 2023. The Board is scheduled to adopt an original Fall Budget at the end of October.

We welcome your questions or comments about the Preliminary Budget. For your convenience, MMSD budget information, including an on-line feedback form, can be found at mmsd.org/budget.

Statement of Revenue Budget Changes from 2022-23 Fall Budget to 2023-24 Proposed Budget

Proposed Revenues by Fund and Source

This table summarizes MMSD revenues in terms of dollars by one (1) digit source code. It shows the prior year 2021-22 Actuals, 2022-23 Fall Budget, 2023-24 Proposed Budget, and the increase/decrease from the 2022-23 Fall Budget versus the 2023-24 Proposed Budget.

Definitions:

- 2022-23 Fall Budget = Fall School Year 2021-22 Budget Adopted by the board in October 2022
- 2023-24 Proposed Budget = Spring Proposed Budget to the Board for School Year 2023-24.

Notes for Proposed Revenues by Fund and Source:

Fund 10

- ✓ Line 2 reflects the increase in the local tax levy due to an estimated decrease in general aid, recurring referenda to exceed, and non-recurring exemptions related to private voucher payments.
- ✓ Lines 3 and 5 reflects a decrease in anticipated property tax chargebacks and TIF revenue.
- ✓ Line 8 reflects an adjustment to reimbursable services for 2023-24
- ✓ Line 12 reflects a decrease in anticipated interest revenues.
- ✓ Line 20 reflects an increase in Open Enrollment revenue based on minimal count and rate changes for 2023-24.
- ✓ Line 26 reflects the phase out of Integration Aid from the state. This program has been declining annually at the state level since 2014-15.
- ✓ Line 27 reflects the anticipated reduction in Bilingual State Aid per prevailing state thresholds for reimbursement.
- ✓ Line 29 reflects an estimated reduction in Equalization Aid for 2023-24. Final spending for all districts and comparison on a shared costs basis will ultimately decide our state aid impact. Since the beginning of the pandemic, there have been wild swings in final aid numbers from the July 1 estimate.
- ✓ Line 30 reflects an increase in Special Adjustment Aid which is generated when there is a significant decrease in Equalization Aid from the prior year.
- ✓ Line 36 reflects a decrease in Other State Revenue Sources due to the reduction of a partially reimbursed position on a grant.
- ✓ Line 38 reflects a reduction in per pupil categorical aid. This aid is based on changes to the three-year rolling average net of special needs vouchers and independent charter schools' student counts. The district enrollment decreases since 2020-21 in the three-year average is the primary cause of reduction in this line.
- ✓ Lines 41 and 43 reflect changes in revenue for matching expenditures for balancing federal grants.
- ✓ Line 44 reflects a reduction in other federal revenue including one-time Back-to-School Supplemental Aid.
- ✓ Line 45 reflects changes in revenue for matching expenditures for balancing non-DPI federal grants.

Fund 27

- ✓ Line 54 reflects a change in the Interfund transfer from Fund 10 to Fund 27. This transfer is required to balance with expenditures in the 2023-24 budget.
- ✓ Line 57 reflects no estimated change to state categorical aid. This aid has historically been prorated based on sum certain state appropriation. The 2023-25 state biennium budget includes a request for more categorical aid, which may cause this line to shift this fall.
- ✓ Line 63 reflects a change in revenue for matching expenditure for balancing federal grants.

Fund 30/38

- ✓ Lines 67 & 72 reflect the tax levy impact of debt schedule payments scheduled for 2023-24.

Fund 41

- ✓ No change in revenue for 2023-24.

**Fund 42**

- ✓ The board is scheduled to award the 3rd and final 2020 capital maintenance bond issue at the end of 2023-24. This will adjust available resources for expenditures budgets following year end 2022-23. There should be no significant revenue impact in Fund 42 during 2023-24.

Fund 50

- ✓ Lines 82 - 95 reflect the initial recalculation of food service operations for 2023-24. A return to paid meals and revenue collection since 2022-23 have shifted revenue expectations for 2023-24.

Fund 80

- ✓ Line 97 reflects a change in tax levy for the Community Services Fund for 2023-24. This levy reflects increases for staff pay, expanded sites and programming.

Independent (2r or 2x) Charter Schools

Background

Independent charter schools (2x charters, or sometimes called 2r charters) are charter schools that are not authorized by a public school district. The term “2x” refers to the section of the charter school law within s. 118.40 that grants non-public school entities the authority to authorize charter schools. All independent charter schools are considered non-instrumentality schools since the employees of the school are not employed by any school district, but are instead employed by the operating organization of the charter school. While they are designated as public schools, they are not part of the Madison Metropolitan School District (MMSD). For more in-depth information on independent charter schools see: Wisconsin Legislature Chapter 118.40 quick reference or Wis. Stats. Chapter 118.40(2r) and (2x).

In Madison, the UW- System Office of Educational Opportunity has authorized three 2x charter schools: 1) One City Schools (One City), 2) Isthmus Montessori Academy Public (IMAP) (both of which opened for students in the 2018-19 school year), and 3) Democratic Milestone in the 2020-21 school year. According to DPI records, DPI informs us each year prior to final budget approval what student count is to be attributed to us in our revenue limit count. Over the last several years, this student count has been on a slow but steady increase. For 2022-23, the count of 2x charter students increased dramatically.

DPI will not release how many of these students were previously enrolled in MMSD. Based on existing data sources, we believe about 80% of the 2x students would have been otherwise enrolled in MMSD and 20% are new to MMSD, or otherwise not previously included in MMSD’s revenue limit membership counts.

Over the past three years, the DPI has paid the following amounts from MMSD resources each school year for 2x charter enrollment in Madison:

- 2018-19 school year - \$1.7 million
- 2019-20 school year - \$2.1 million
- 2020-21 school year - \$2.7 million
- 2021-22 school year - \$3.2 million
- 2022-23 school year - \$5.5 million
- 2023-24 school year - \$7.2 million (estimated)

Analysis

The 2x charter funding formula is more complicated than it may seem, as there are multiple highly sensitive elements in the state’s funding formula that work for or against districts. The fact that 2x charter students are included in our revenue limit membership count could be considered inherently good for MMSD; however, it is more complicated than this. There are no clear ‘good’ or ‘bad’ outcomes across the policy because the impact 2x charters have on any individual school district is incorporated into the overall student count for revenue limit calculations. For example, a growth in 2x charter programming does not help a school district’s revenue limit calculation if overall enrollment is in decline.

2x charter impact

The impact the current 2x charter schools had on the MMSD 2018-19 school year budget was a \$1.7 million net expense, deducted from MMSD General Aid by DPI. Due to MMSD’s circumstances with available referendum funding from 2016, the MMSD revenue limit authority did not increase with our 2x membership increase. Therefore the \$1.7 million in lost revenue was never offset by an increase in

revenue for MMSD in 2018-19. By 2020-21, MMSD estimated a net loss of \$2.5M due to the 2x charter program not otherwise funded as may have been intended by the statute.

This information is better explained by investigating aspects of how funding for 2x charters are generated.

1. Revenue Limit Authority

The district's new revenue each year is restricted by the state using a revenue limit per pupil. The revenue limit formula uses a three year rolling average of the student membership count, which has included the 2x charter students since the 2018-19 budget. In the funding formula, students new to the district count are not counted as a whole student until 3 years after they enroll. Additionally, students previously enrolled in the district never generate any new revenue authority. 2020-21 will be the first time the initial cohort of 2x charter students were counted as a full student.

The 2x charter impact is further complicated by the fact that MMSD has been considered a declining enrollment district. When in declining enrollment status, DPI ensures the district never loses any more revenue limit authority than the prior three year average by issuing non-recurring revenue exemptions. Therefore, until and unless the 2x charter membership count produces enough 'new to MMSD' students to reverse the declining enrollment trend and move us out of "hold harmless", MMSD will not see any new funding. For 2018-19, MMSD did not generate any new revenue to offset the \$1.7 million expense largely due to exemptions for declining enrollment and hold harmless provisions. In 2019-20, MMSD was able to pass \$353K of revenue loss onto the local taxpayers through a very small revenue limit increase. In 2020-21, the district's expenses reached \$2.7 million with a marginal revenue limit increase of \$615K to slightly offset the costs. Due to declining enrollment experienced in recent years following the COVID-19 pandemic, all increases in 2x charter enrollment generate no additional recurring revenue for the district.

2. Expenditures

In 2022-23, the district where a child lives paid each 2x charter \$9,264 for each FTE student. This is estimated to increase to \$9,638 per pupil for 2023-24. This expenditure is not calculated on the same 1/3 basis as discussed for revenue above. Rather, this full cost is charged in the same year the student enrolls in the 2x charter.

For the 2023-24 school year, the current 2x charter schools are expected to expand following their approved expansion plans through the UW-System Office of Educational Opportunity. So long as the growth model continues, MMSD will never find itself in a moment when all students are counted 100% in our membership counts.

Further, 2x charter schools can enroll students across all of MMSD; this type of spread out enrollment loss makes it much more difficult to fund the 2x charter model. One or two students across various schools and various grade levels make it difficult to reduce costs. For example, MMSD can't reduce a teacher when one student from one grade moved into a 2x charter. Nor can MMSD reduce a bus route when 3 students are no longer on a bus that fits 60+ students.
