## Draft Setup

Randomize an order for the draft

- dice; cards; best potluck dish; etc.

Draft chef contestants "snake" style (first to last, then last to first)

- 2-4 players: Draft 3 chefs each
- 5-7 players: Draft 2 chefs each

## Preparation

## Players gather and watch the first episode.

- A potluck of shared food and drink is encouraged
- Designate proxies to draft for absent players
(and eat their share of the food)
- Points do not count from Episode 1

## Finale

## Players gather and watch the finale with more food and drink.

- Final totals include all points from all chefs active and eliminated.
- Highest total wins!

## Optional Re-Draft Variation

A Player with no active chefs remaining may draft one replacement from available remaining chefs. Any points the re-drafted chef has earned previously do not count. No re-drafting once only seven chefs remain. If two players re-draft after the same episode, the player with the lowest point total drafts first.

|  | Scoring Chart |
| :--- | :--- |
| PTS |  |
| $\mathbf{0}$ | "Please Pack Your Knives and Go" |
| $\mathbf{1}$ | Survive the Episode |
| $\mathbf{2}$ | Member of a Winning Team |
| $\mathbf{3}$ | Win a Quickfire Challenge |
| $\mathbf{3}$ | Return from Last Chance Kitchen |
| $\mathbf{5}$ | Win an Elimination Challenge |
| $\mathbf{5}$ | Make the Top Chef Finals |
| $\mathbf{1 0}$ | Win Top Chef! |

## Determining Your Score

Every episode, tabulate all points earned by all chefs for each player. Each player's total is the combined number of points generated by all active and eliminated chefs. Chefs can score in multiple categories per episode. Eliminated chefs score zero but retain all earned points and may return through Last Chance Kitchen.
